

Affiliate Organisation Programme

Any international, national or regional organisation who has an interest in the field of incontinence can apply for affiliation. As the only international multi-disciplinary society that focuses solely on incontinence, the ICS is seeking affiliation with other organisations in order to enhance management of incontinence care.

Benefits for your members can include:

- Reduced membership fee
- Subscription to the Neurourology and Urodynamics Journal
- ICS Newsletter
- Substantial discounts on registration for the annual meeting
- And much more!

Your society will also have the opportunity to publicise activities and events in the ICS Newsletter and E-news.

For further information please visit www.ics.org/members/affiliates

We are proud to acknowledge the following affiliate organisations:
