### Dear Friends and Colleagues,

Following years of planning, in the blink of an eye we are in Rio de Janeiro for the 44th International Continence Society Annual Meeting! We are proud to host this meeting for the first time in Latin America and especially as it is in my country, Brazil.

The construction of the scientific programme is always a challenge, and this year we really wanted to be innovative which posed an even greater challenge. The scientific and education committees stood up to the challenge and have worked hard to fulfill these objectives, so I would like to encourage you to take advantage of the results of the contributions by our colleagues who have donated their skills, knowledge and time to make this meeting what it is. We also need to thank all the speakers who are contributing to the meeting, without them it would not be possible.

Do not miss the State of the Art Lectures, we have some very interesting topics ranging from Aging and Nitric Oxide to Pelvic Floor Dysfunction and its Psychosocial Consequences. This year we have increased the numbers of round tables which will be running parallel on all three days, and we also have several workshops running concurrently with the Scientific Programme.

There will be a new feature for this year's meeting: "Open Discussion Posters" which replaces the Non Discussion Posters (formerly affectionately known as Death Valley!). Visit the new Open Discussion Poster sessions during lunch breaks on Wednesday and Thursday for your chance to take part in discussion with poster authors and vote for the best posters.

The wind has changed its direction. Due to the current financial climate when organising the social events we needed to lower expenses whilst maintaining the local flavour. The Local Organising Committee and ICS have worked magic to fit within the budget, and we believe you will appreciate all we have done for you.

We are very pleased with your participation, welcome to ICS 2014.

### Dear Friends, Colleagues and Guests,

I would like to welcome you to the 44th ICS Annual Scientific Meeting – the first time ever in Rio de Janeiro and in South America. As in previous years, the scientific content of the meeting and dissemination of new knowledge in the field of incontinence and pelvic floor disorders during the 5 days in October will be unsurpassed anywhere.

Carlos D'Ancona, Meeting Chair, and the local organising committee have put together a memorable social programme with a distinctly

Brazilian theme. Nucelio Lemos heads this year's Scientific Committee. The committee considered over nine hundred abstracts that were submitted and triply reviewed. The programme includes 42 podium, 253 podium posters, and 10 podium videos as well as 401 open discussion posters, 18 open discussion videos, and 84 read by title.

The State-of-the-Art sessions will include a lecture on Aging and Nitric Oxide by Gilberto de Nucci, one of the most highly cited biomedical scientists in the world. The other sessions will be Living with Pelvic Floor Dysfunction and its Psychosocial

Consequences, and Neuromodulation Round Table: Past Present and Future. There will also be a special Ethics Lecture by Professor Alex London, from Carnegie Mellon University. Other highlights are Meet the Experts, the Nursing Forum, Pelvic Floor Exercise Class, Physiotherapy Round Table. There are 40 basic and advanced workshops from which to choose. As always, there are multiple other sessions and meetings that will keep the SulAmérica Convention Centre busy throughout the meeting.

This has been a year of consolidation for the ICS. Barcelona was a clear success in all respects and helped put the organisation back on track for the future. Over the course of the year, the Trustees worked very hard at work in completing the tasks recommended in the Strategic Plan. We worked on increasing, improving, and communicating the intellectual and scientific output of the Society. We are proposing a whole host of bylaws additions and amendments to improve the structure and function of the society. We continue to work on improving the current financial structure and securing professional advice on ensuring future financial health. We are working very closely with the Committee Chairs in reviewing and revising the Committee Structure to ensure that it reflects the goals and aims of the Society. All of this work takes time and I hope that you as a member can appreciate the commitment that so many volunteers are putting into the ICS to ensure a bright future.

Despite the new reality of fiscal restraint, accountability, and transparency the ICS still managed to maintain the office intact and conduct successful programmes, courses, and workshops around the world. Our membership numbers are strong and many members have generously contributed their time as committee members to further the goals and aims of the ICS. A special thanks to them and to the Trustees for their dedication and tireless work over the past year.

Again this year in advance of the Annual General Meeting there will be an opportunity for members to meet with the Trustees at a special Town Hall session to question Trustees on any ICS matter. Please join us from 6pm Wednesday, 22 October.

This is your opportunity to hear a review of ICS activities and plans for next year as well as to vote for bylaws changes and members in various positions. It is also your chance to be involved in your society and have your say as a member.

Please visit the ICS Booth in the exhibition area to get information about ICS activities, functions, and next year's meeting or just to meet the office staff. Our dynamic and dedicated staff is a vital part of this organisation.

This is my final meeting as General Secretary and I am very pleased that the next General Secretary, Adrian Wagg, is so knowledgeable and skilled and will provide excellent leadership to the organisation. I wish him all the best in his new position.

I would like to thank all of you who are attending this meeting and those who will join the meeting through our extensive online activities.

Please join me in thanking Carlos D'Ancona, Nucelio Lemos, and the local organising committee for hosting the 44th Annual ICS Meeting in Rio de Janeiro.

## Meeting Language

The official language of the Meeting is English. Some sessions will be simultaneously translated in Portuguese. They are indicated with the Brazilian flag on the Schedule at a Glance. Please note Workshop 9 has sections of Spanish lecture.

## Name Tags

Upon arrival at the meeting, participants will have received name tags and relevant vouchers for pre-booked workshops, meeting activities and social functions. Please be sure to wear your name tag to all sessions and present invitations for entry to social events and pre-booked activities. If you are an ICS member please exchange your voucher for an "ICS Member" ribbon via the ICS booth.

## Meeting Abstracts and Handouts

All of the 2014 Abstracts are available on the ICS website: [www.ics.org/abstracts](http://www.ics.org/abstracts). You can also visit the ICS booth to view and print the abstracts and watch the videos.

## Abstracts on USB

The 2014 Abstracts on a USB stick are available from the sponsor when the exhibition opens on Wednesday. All delegates will have a voucher in their delegate bag that can be exchanged for a USB stick at the sponsor's booth. The USB stick will contain all 2014 Abstracts as well as all workshop handouts.

## Cyber Café & Internet

Free internet facilities are available to all meeting participants in the exhibition area during exhibition opening hours. Please do be considerate of fellow participants when using these facilities. Internet Wi-Fi services will be available free of charge to all participants in the exhibition area.

## Coffee & Lunch Breaks

During the main Annual Meeting (20-24 October 2014), coffee, tea, pastries and a light lunch buffet will be served to delegates according to the breaks indicated in the programme.

## Mobile Phones

Participants are kindly requested to keep their mobile phones switched off in session halls.

## List of Participants

A list of participants is displayed on the notice board next to the registration area.

## Notice Board / Messages

There will be a notice board near the registration where updates and notifications will be posted during the Annual Meeting. Participants are also welcome to use this board to leave messages for colleagues.

## Liability and Insurance

The Conference Secretariat and Organisers cannot accept liability for personal accidents or loss of or damage to private property of participants. Participants are advised not to leave their personal belongings unattended in session halls and throughout the Meeting venue.

## Photography

Please note there will be official photographers at the ICS 2014 Annual Meeting. Photographs taken during the event may be later used in ICS publications. Please do not take photographs during scientific sessions.

## Video Photography

Due to legal and privacy regulations, we request that participants refrain from any video recording during sessions. This is also disruptive to fellow participants and we therefore ask you to be considerate.

## Smoking Policy

This is a non-smoking venue. Participants are requested to refrain from smoking in all areas.

## Green Meeting

ICS 2014 and Kenes International are devoted to an environmentally friendly ethos and as such make every effort to organise the Annual Meeting as a Green Meeting in as many ways as possible.

Here are just a few of the processes we have incorporated at the ICS 2014 Meeting:

- The ICS 2014 programme book is printed on paper with recycled content, minimal size and length.
- Participants list is displayed on a notice board instead of printed for every participant
- Complete Workshop handouts, Abstracts and Video materials are on the meeting USB stick
- Workshop printed hand-outs have been cut down to a maximum four pages
- Evaluation forms are completed online with ability to download certificates of accreditation.
- Reduced plastic registration envelopes and plastic name tag holders
- Name tags can be deposited when participants leave the meeting to be re-used

## Green Participants

Offset your Carbon Footprint – You can contribute to our ecological efforts by off-setting the Carbon Footprint of your travels to ICS 2014. A Carbon Offset represents a reduction in emissions somewhere else – like a wind farm in Texas or a reforestation project in Nicaragua – to balance out the emissions you cannot reduce. You can learn more and offset your carbon footprint at [www.carbonfund.org](http://www.carbonfund.org).

## Webcasts

We are pleased to announce that all Scientific Sessions taking place in the Auditorium, as well as 6 workshops have been selected to be recorded. Webcasts will be online on the ICS website allowing users free access to these key presentations throughout the year. Webcasts offer the chance to hear and view original lectures synchronised with slide presentations. Webcasts sessions are marked in the programme with this icon 

# CME Accreditation for the ICS 2014 Annual Meeting and Workshops

The 44th Annual Meeting of the International Continence Society was granted 27 European CME credits (ECMEC) by the European Accreditation Council for Continuing Medical Education (EACCME).

## European Accreditation

European Accreditation is granted by the EACCME in order to allow participants who attend the above-mentioned activity to validate their credits in their own country.

## Accreditation Statement

The '44th Annual Meeting of the International Continence Society' is accredited by the European Accreditation Council for Continuing Medical Education (EACCME) to provide the following CME activity for medical specialists. The EACCME is an institution of the European Union of Medical Specialists (UEMS), [www.uems.net](http://www.uems.net).

The '44th Annual Meeting of the International Continence Society' is designated for a maximum of (or 'for up to') 27 hours of European external CME credits. Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

Through an agreement between the European Union of Medical Specialists and the American Medical Association, physicians may convert EACCME credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process to convert EACCME credit to AMA credit can be found at [www.ama-assn.org/go/internationalcme](http://www.ama-assn.org/go/internationalcme)

Live educational activities, occurring outside of Canada, recognised by the UEMS-EACCME for ECMEC credits are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of The Royal College of Physicians and Surgeons of Canada.

## EACCME credits

Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity. The EACCME credit system is based on 1 ECMEC per hour with a maximum of 3 ECMECs for half a day and 6 ECMECs for a full-day event.

## Certificates of Accreditation (Annual Meeting and Workshops)

Certificates of accreditation/attendance will be available to download from the meeting website via this link: <http://www.ics.org/2014/cme> as of Tuesday, 21st of October 2014.

Participants are requested to complete the meeting evaluation and the certificate will then be available to be e-mailed/downloaded with your name.

Accreditation can then be obtained by sending this certificate along with the scientific programme to your National Continuing Education Board. It is the responsibility of the delegate to provide the accreditation certificate to the appropriate Education Board. For CME participants who are members of the EU-ACME programme, it is recommended to bring your EU-ACME card to the ICS booth to be scanned.

# Awards

ICS 2014 is proud to award the following prizes for abstracts at the Annual Meeting

## Pre-selected abstract prize winners:

The following prizes will be presented at the ICS Annual Dinner on Thursday, 23 October at 20:00 / or at the Closing Ceremony on Friday, 24 October from 14:00.

## Prizes to be selected following presentations during the Annual Meeting:

The following prizes will be presented at the Closing Ceremony on Friday, 24 October at 14:00.

### ICS Best Clinical Abstract Presentation

### ICS Best Non-Clinical Abstract Presentation

**Young Investigators Award** – Sponsored by an Industry partner

All abstract presentations will be judged by the ICS 2014 Scientific Committee during the course of the programme.

## Conference Travel Awards

The ICS aims to advance bladder and bowel science, promote multi-disciplinary continence care and encourage the development of continence services in less economically developed countries. The ICS conference travel awards are designed to help meet these objectives by assisting members from three key groups who are likely to lack resources to travel and attend the annual meetings.

- Members from less economically developed countries
- Members from allied health and non-medical professions
- Members in training

The following individuals received the ICS 2014 Conference Travel Award:

Katherine Armstrong	Clara Gargasole	Dinesh Suman
Senad Bajramovic	Marianne Koch	Oleg Tatarov
Rufus Cartwright	Lindi Magnuson	Sandra A. Wilks
Bruna Couri	Céline Meriaux	Flavio Yudi Yamada
Melissa Davidson	Kevin L.J. Rademakers	ZhengYong Yuan
Sybil Dessie	Mohammad.S. Rahnama'i	Ali Abdel Raheem Hassan Ali
Eugenia Fragalà	Karen Schultz	

# Presentation Information

## Speakers' Ready Room

The Speakers' Ready Room is located on Level 2 of the Conference Venue. All Podium, Poster and invited speakers for workshops are required to submit their presentations to the Speakers' Ready Room well in advance of their presentation, and up to 1 hour before the beginning of the session.

All presenters will be required to complete a disclosure slide shown at the start of their presentation in order to present their work. The speaker ready room staff will assist you to complete this.

The Speakers' Ready Room will be open at the following times:

Monday, 20 October 2014	08:00 – 18:00
Tuesday, 21 October 2014	08:00 – 20:00
Wednesday, 22 October 2014	07:30 – 19:00
Thursday, 23 October 2014	07:00 – 18:00
Friday, 24 October 2014	07:30 – 16:00

- You were notified by email in advance of the Meeting, the type, time, venue and duration of your presentation. This can also be found here in the Scientific Programme.
- Presentation times depend on the type of presentation for which you have been scheduled
- You should arrive at your session hall, introduce yourself to the session chairman and familiarise yourself with the audiovisual facilities **at least 15 minutes prior to the start of the session.**

## Podium Presentations

- Your Presentation should be 5 minutes of slides and oral presentation followed by 10 minutes of discussion and questions hosted by the chairman.

## Video Presentations

- Please come prepared to answer a 5 minute question and answer session directed by the Chairs of your session after your video is displayed. Your video presentation has already been received by the ICS office. The audiovisual team will handle the displaying of all videos in the video session.

## Poster Presentations

- Poster Presenters must move their poster to the allocated hall from the main poster display area in time for their presentation during a coffee or lunch break before their scheduled session. Please do not hang posters in a hall whilst sessions are taking place.
- Poster sessions will include a time for poster viewing followed by oral presentation of each poster displayed in the session room.

- You will have 2 minutes presentation and 3 minutes discussion. You should prepare 2–3 slides with the Aims, Main Results and Conclusions (descriptions of methodology should be outlined on the poster)
- At all other times apart from when your poster is displayed in the session hall, please ensure that you keep your poster displayed in the main poster area as outlined in the section ‘Open-Discussion Posters’ below. This may require you to move your poster to the session hall and then return it to the main poster area.

## Open Discussion Posters:

Open-discussion posters at the ICS Annual Meeting are poster presentations accepted to be displayed at the congress in the poster area. Authors will have the opportunity to present their work to delegates.

### ICS Poster Pilots

Expert moderators (“Poster Pilots”) will be on hand to facilitate questions and discussion from delegates. Abstracts accepted as open-discussion will not be published in the Neurourology & Urodynamics Issue. They will be available at the ICS booth during the annual meeting as well as being accessible to all ICS members via the website ([www.ics.org](http://www.ics.org)) and the Delegate USB stick.

### Attendance at Open-discussion Poster Session:

- Posters will be located in the designated ‘Poster Area’ at the meeting venue.
- Plan to have your posters displayed for the day of your Open Discussion only (Wednesday OR Thursday).
- Your poster location will be indicated by an assigned number.
- Please put up your poster on the relevant day any time from 0800 until 1100. Please note that the poster boards will not be set up prior to this time.
- Double sided tape and technical equipment will be available for the mounting of posters. Staff will also be available to assist you.
- Please remove your poster on the relevant day of your between 1530-1600. Any posters not removed will be destroyed at the end of the conference.

## Open-Discussion Video Abstracts

Authors will have the opportunity to present their work to delegates at the ICS Booth in the Exhibition area. Expert moderators (poster pilots) will be on hand to facilitate questions and discussion from delegates on Wednesday 22nd October from 12:30 to 14:00.

Your videos will be available at the ICS booth during the annual meeting as well as being accessible to all ICS members via the website. Your Video and Abstract will also be published onto the ICS website ([www.ics.org](http://www.ics.org)), but will not be published in Neurourology & Urodynamics.

## Data Presentations

If using a PowerPoint (or any other computer) presentation, please note you need to bring it on USB Memory stick and load it on one of the conference' computers in the Speakers' Ready Room, at least 1 hour before the start of the session.

Please note that the meeting computers in the session halls are being supplied with Office 2007 (at least). If combining video films with PowerPoint, please make sure to check it in the session hall where your lecture is taking place during a coffee or lunch break prior to your session, at least 30 minutes before the start of the session - even after checking it in the Speakers' Ready Room.

## Important note for Macintosh users

In order to use MAC presentations on a PC compatible computer please note that you need to prepare it according to the instructions below, before bringing it to the Speakers' Ready Room:

1. Use a common font, such as Arial, Times New Roman, Verdana etc. (special fonts might be changed to a default font on a Windows based PC).
2. Insert pictures as JPG files (and not TIF, PNG or PICT - these images will not be visible on a Windows based PC).
3. Use a common movie format, such as MP4, AVI and WMV (MOV files from QuickTime will not be visible on a Windows based PC).

You may use your own Macintosh laptop computer. In such a case please confirm you provide it with a VGA adaptor for external signal and come to check it first in the Speakers' Ready Room as soon as you arrive and later on in the session hall where your lecture is taking place during the coffee or lunch break prior to your session, at least 30 minutes before the start of the session.

**Please note that VHS Video projection, 35 mm' slide projection and Overhead projection (projection of transparencies) will not be available.**

# ICS Promoting Scientific Excellence

As part of the ICS strategy to promote excellence, the ICS Board of Trustees has created a variety of awards for a range of activities to encourage scientific creativity and to reward individuals for substantial contributions to the Society.

ICS aims to advance basic and clinical sciences concerned with the function and dysfunction of the urinary tract, bowel, and pelvic floor, and to promote multi-disciplinary continence care and encourage the development of continence services in less economically developed countries.

Please visit [www.ics.org/awards](http://www.ics.org/awards) to find out more about the following types of awards:

- ▶ Abstract Awards
- ▶ Conference Travel Awards
- ▶ Fellowship Awards
- ▶ Research Grants
- ▶ Lifetime Achievement Awards
- ▶ Honorary Membership Awards

# ICS Claim Your CME Credits Online

To claim your CME / CPD credits for attending ICS 2014 please visit [www.ics.org/2014/cme](http://www.ics.org/2014/cme)

ICS invites you to complete an online evaluation of your experience at ICS 2014. The survey is anonymous, and once completed you will be redirected to the credit claim system. Your certificates will then be delivered to you via e-mail.

## Additional Meeting Activities

### Nursing Forum

Monday 20th October 2014, 12:00-17:00

Room B1

ICS invites you to an afternoon of nursing focused talks and discussions. Listen to lectures of recent research and experiences of nursing in Brazil. An open round table will provide insights from experts from around the world. With a lunch provided for all registered delegates, we hope that you will join us for what promises to be a very interesting afternoon. Session cost: USD 30.

### 13th Physiotherapy Round Table Programme

Monday 20th October 2014, 13:30-21:00

Room B2

The Physiotherapy Round Table is an opportunity for physiotherapists, or anyone interested in physiotherapy, to network, enjoy presentations from emerging and established researchers and clinical leaders and most of all, have fun. The Round Table programme includes a variety of presentations and the opportunity to attend two workshops of your choice. Session cost: USD 40.

## Trainee Session

Tuesday 21st October 2014, 16:00-18:00

Room C

The ICS is pleased to announce the second ICS Trainee Session at ICS 2014; the session will be for trainees, students and fellows. We have prepared a relaxed session with a combination of lectures and presentations which we think will be of great interest to those just starting their careers. Young ICS members will present lectures relating to research which will be followed by presentations from those with open-discussion posters who then receive feedback on their presentation skills, slides and scientific content. Plus for the first time ever we will also be hosting a trainee evening out!

We welcome ICS members and non-members from all disciplines who have graduated or completed their education in their specialty field within the last 5 years. Young ICS members will present lectures relating to research which will be followed by presentations from those with open-discussion posters who then receive feedback on their presentation skills, slides and scientific content.

Trainee Night out: the session will be followed by the ICS Welcome Reception in the conference centre. Following the Welcome reception all trainee session attendees and speakers will be transported by bus to the Rio Scenarium nightclub-voted one of the top 10 nightclubs in the world by the Guardian Newspaper! On arrival you will be provided with your two free drinks tickets and shown to the ICS reserved space. From there you are free to mingle with your peers or explore the fantastic nightclub set over 3 floors each of which holds an astonishing mix of vintage items: an old pharmacy dating back to 30s, ancient Chinese ceramics, seasoned barber chairs and plenty of fascinating objects! Return transport will be provided to the Copacabana/Ipanema neighbourhoods.

The session is free of charge but pre-registration is required at the main registration desks.

## Pelvic Floor Exercise Class

Tuesday 21st & Wednesday 22nd October 2014, 12:30-13:30

Room B2

After a short review of current group-therapy evidence for UI in women, participants will actively take part in a PFM group therapy session aimed at treating urinary incontinence in women. Both male and female practitioners and researchers will benefit from this experience. Post-exercise discussions will focus on strategies to address commitment to and adherence with the exercise classes and the home exercise programme. These sessions will be held at lunch time, we are holding two classes again this year:

**Tuesday** - Pelvic floor exercise classes for pre and post natal women

**Wednesday** - Pelvic floor exercise classes for the treatment of urinary incontinence in aging women.

## Ethics Lecture - Research and Global Health: Some Considerations of Justice (Professor Alex London)

Wednesday 22nd October 2014, 12:30-13:30

Room 1

The ICS Ethics Committee is honored to present a lecture by the distinguished medical ethicist, Professor Alex London, of the Carnegie Mellon University in the United States. This one-hour lecture is open to all attendees.

Alex John London is Professor of Philosophy and Director of the *Center for Ethics and Policy* at Carnegie Mellon University. Professor London is an elected **Fellow of the Hastings Center** and recipient of the Distinguished Service Award from the American Society of Bioethics and Humanities (ASBH) and a **New Directions Fellowship** from the Andrew W. Mellon Foundation. Professor London's research focuses on foundational ethical issues in human-subjects research, issues of social justice in the trans-national context, and on methodological issues in theoretical and applied ethics. His papers have appeared in *Science*, *The Lancet*, *PLoS Medicine*, *Statistics In Medicine*, *The Hastings Center Report*, and numerous other journals and collections. He is co-editor of *Ethical Issues in Modern Medicine*, one of the most widely used textbooks in medical ethics and has been commissioned to write papers for the Centers for Disease Control and Prevention (CDC) and the Institute of Medicine (IOM). In 2012 he joined the Working Group on the Revision of the CIOMS 2002 International Ethical Guidelines for Biomedical Research Involving Human Subjects and in 2011 he was appointed to the Steering Committee on Forensic Science Programs for the **International Commission on Missing Persons (ICMP)**. Since 2007 he has served as a member of the Ethics Working Group of the **HIV Prevention Trials Network**.

Professor London's presentation will address the following issues:

- Moral considerations in cross-national, collaborative research
- Community benefits in international research
- Considerations regarding the standard of care and prevention and whether these should ever differ between high- and low-income countries

## Meet the Experts

**Wednesday 22nd & Thursday 23rd October 2014, 13:30-14:30** **Room 5**

The aim of these sessions is to provide an informal atmosphere where delegates can interact with experts who will give their undivided attention for an hour for knowledge, insight and networking. Lunch is provided, and you will be part of a small group to sit and discuss with two world renowned experts in the field. The list of topics are below, and the expert names will be announced closer to the meeting for each topic.

Please also note that you must arrive in good time for the session and in the event that you arrive after the first 15 minutes, your place may be given to someone on the waiting list. Tickets are non-refundable.

## Continence Awareness Forum

**Wednesday 22nd October 15:00 - 18:00** **Room A**

The Continence Promotion Committee is pleased to announce that the Continence Awareness Forum will return for 2014 in Rio. As well as the general public, we are inviting health care providers from all fields as well as patient advocacy groups. Various national patient advocacy groups exchange and share their knowledge and expertise, along with ICS opinion leaders discussing important news and changes. We hope this will be an exchange of information regarding urinary incontinence and treatment among our countries including patients, healthcare professionals and industry representatives.

## **ICS Town Hall Meeting**

**Wednesday 22nd October 2014, 18:00 - 19:00**

**Room C**

Following the success of last year's inaugural members/Board meeting, the ICS Trustees would like to invite you to the second 'town hall' meeting to discuss ICS strategy and direction. The Board of Trustees recognise that the AGM does not offer the membership sufficient opportunity to discuss society matters at length or in depth so this is your opportunity as ICS members to discuss matters directly with the Board and to provide your feedback and suggestions for future initiatives.

---

## **ICS Meets the Continence Societies**

**Thursday 23rd October 13.30 - 14.30**

**Room C**

The ICS is pleased to confirm that the working lunch between the ICS and international continence societies will return in Rio. To this working lunch forum we have great pleasure in inviting national medical societies, together with national and international patient/consumer organisations concerned with urinary and faecal incontinence and bladder, bowel and pelvic floor disorders. Existing ICS Affiliate Members are welcome to come and meet with others and we welcome those interested in furthering their relationship with the ICS. Lunch will be provided

Complete your Bladder Diary and join in with the biggest study in the history of the International Continence Society.

We are collecting thousands of Bladder Diaries from people all over the world to establish what is 'normal' with regards to urinary continence.

This will be a milestone in understanding bladder function. Be a part of it and download the diary now!

---

**Chairs**Paul Riss, Austria

---

**Speakers**Paul Riss, Maria Augusta Bortolini, Robert Freeman

---

**Aims**

Delegates will learn first-hand from editors of the International Urogynecology Journal how to structure a manuscript, how to use reporting guidelines – including ethical considerations – and how to avoid traps like salami publications and plagiarism. In the second part delegates will take the role of a reviewer. They will learn how to review a manuscript and how to write a good review which will be helpful to the authors and the editor. The workshop will feature short presentations, interactive group work and extensive question and answer sessions.

---

**Chairs**Luis Abranches-Monteiro, Portugal

---

**Speakers**Luis Abranches-Monteiro, Miguel Silva-Ramos, Paulo Rodrigues

---

**Aims**

Bladder outlet obstruction in women and abnormal detrusor function are a cause for LUTS and can result in voiding dysfunction. This is particularly true when facing surgical correction of urinary incontinence. Yet, both are difficult to define and even more difficult to measure. No clinical syndromes are clearly related but the long term consequences may be important resulting in high residual volumes, infection and voiding difficulties. It is urgent to have tools that can assess urethral resistance and detrusor function in women. The methodology used in males is not suitable to the female lower urinary tract. We depict the main urodynamic and clinical differences and propose adjustments to be used in clinical practice.

---

**Chairs**

Rufus Cartwright, United Kingdom

---

**Speakers**

Rufus Cartwright, Heidi Brown, Jennifer Wu, Nedra Whitehead, Ian Milsom, Jonathon Williams, Pawel Miotla

---

**Aims**

With the advent of genomic techniques, we now stand on the cusp of a revolution in our understanding of pelvic floor disorders. Identification of the genetic variants underlying the heritability of these conditions provides useful markers for clinical risk, prognosis, and treatment response, and startling new insights into pathophysiology. This workshop brings together genetic epidemiologists, urologists and urogynaecologists pushing the boundaries of this field. We will review the evidence so far from the genetics of pelvic floor dysfunction, and explore how understanding of both human and microbial genomes will translate to personalized therapeutics.

**Aims**

In the first part information on neurophysiology of the lower urinary tract and on pathophysiology related to cerebral, spinal and peripheral lesions and how they are reflected in clinical symptoms are provided. Thereafter a standard diagnostic approach will be presented and the value of the classic urodynamic techniques discussed. In the second part an overview on the therapeutic strategies in 2014 in patients (1) with an overactive detrusor and (2) with an underactive detrusor, each combined either with an underactive sphincter, an overactive sphincter or a normal sphincter will be given.

**Multidisciplinary approach to female sexuality based on practical concepts**

**Chairs**

Aparecida Pacetta, Brazil

**Speakers**

Aparecida Pacetta, Maura Seleme, Bary Berghmans, Willy Davila

**Aims**

The approach of Female sexuality dysfunction is still controversial in literature, even if physicians and physiotherapists nowadays pay more attention to this problem and the patients are demanding for more information. The purpose of this workshop is to bring more comprehension of sexual dysfunctions based on evidences and experiences of physicians and physiotherapists. The physiotherapeutic treatment is still unknown to the majority and the demonstration of those techniques is essential to give more therapeutic options with medical treatment. The intention of this is to create a method in which professionals of distinct areas will be able to act more efficiently.

**Speakers**

**Aims**

This workshop aims to discuss the importance of a multimodal approach in the treatment of patients diagnosed with chronic pelvic pain syndrome. There is emphasis on a multimodal approach while recognizing the unitary psychophysiological nature of both illness and healing. Discussion of neuromodulation and neuroplasticity in the treatment of chronic pelvic pain will be undertaken. Specific consideration will be given not only the symptoms as guidelines to treatment but also the patient as a whole including the environment he or she is living and functioning. New information on the importance to evaluate gut microbiome and possibility of auto-vaccination in the treatment of IC. Another talking point involves the degree of patient willingness.

**Aims**

Detrusor underactivity has gained increasing scientific and clinical interest since it became obvious that a substantial number of female or male patients suffer from this bladder condition. The key speakers of this workshop are intensively involved in new research initiatives within this unexplored field. They will present and discuss the known facts concerning the diagnosis of detrusor underactivity. Which invasive or non-invasive tools to assess contractility are currently available? How can we differentiate detrusor underactivity from bladder outlet obstruction? How do we define the patients with detrusor underactivity and what are differences in assessment of male and female patients?

**Aims**

This workshop will provide an overview of lower urinary tract biomechanics and its relationship to Urodynamics, physiology, and pathophysiology by reviewing developing theories regarding the relationship between bladder mechanics and physiological responses at whole organ, cellular, and molecular levels. We will also relate biomechanics to pathophysiology and clinical treatments of lower urinary tract dysfunction. This workshop should provide the background for researchers and clinicians to test their own theories regarding lower urinary tract biomechanics and its impact on lower urinary tract physiology.

---

**Aims**

Complicated cases of OAB are seen daily in urology and urogynaecology practice. Managing these cases is often challenging despite the multiplicity of treatment options available. A better understanding of the disease, a better management of the patient seen at his first visit, a better knowledge of new and future drugs, a better use of non invasive techniques, a better use of botulinum toxin and neuromodulation are many ways of improving our management of these difficult cases. This workshop will re-visit all these approaches and will be driven by clinical cases to better illustrate these different approaches. Participants will be also invited to bring their difficult cases to be discussed by other attendees and by the panel of experts.

**Chairs**

Howard Goldman, United States

**Speakers**

Howard Goldman, Sandip Vasavada, Roger Dmochowski, Tristi Muir, Kamran Sajadi

**Aims**

This course will summarise both common and uncommon complications associated with standard and new technologies used for pelvic floor reconstruction and urinary incontinence therapy in women. The intent of this course is to present both the approach to evaluation and management of these complications from both the urologic and urogynaecologic perspective of the combined faculty. The emphasis is on newer technologies and complications, both acute and chronic, that are associated with these various surgeries. The goal of this course will be to summarise, not only, identification, but also evaluation and appropriate intervention, as well as patient counselling for these various complications.

**Audience**

Any pelvic floor reconstructive surgeon who performs incontinence and/or pelvic organ prolapse surgery. Whether one is a urologist or a gynaecologist a review of the essentials for preventing, evaluating and managing such complications is essential.

**Aims**

This workshop offers a comprehensive overview on the current knowledge on nocturia on an advanced level. In the first diagnostic part we will clarify the importance of nocturia and the effect on quality of life, sleep and general health. Based on patient characteristics a guidance for an advanced diagnostic approach will be set out. In the second therapeutic part, nocturia in specific patient groups and the implications on treatment will be discussed. Besides, an overview on the different hormones involved in diuresis will be set forth as a guidance for treatment. An interactive session at the end will give the audience the possibility to get a practical feeling with the new knowledge.

**Aims**

The aim is to explore the neurological basis of complex pelvic floor disorders and to provide guidance for management and treatment using different types of neuromodulation. The objectives are: 1. To understand the neurology of the pelvic floor in complex pelvic floor disorders like intractable OAB/DO, chronic pelvic pain and faecal incontinence. 2. To comprehend how neuromodulation works. 3. To look at the role of Posterior Tibial Nerve Stimulation (PTNS), Sacral Neuromodulation (SNM) and Pudendal Neuromodulation (PNM) in the management of complex pelvic floor disorders. 4. To practice PTNS, SNM and PNM techniques on provided models.

Supported by the ICS strategic plan, the Committee continues to work on content of the education modules. The teaching modules that the Committee has developed, and will continue to develop, consist of a peer reviewed published manuscript, a slide set and webcast presentation. The goal of these teaching modules is to provide an optimal combination of scientifically valid, easily accessible education for everyone. We are still continuing to improve the model with further standardisation of the manuscripts, which will be published in N&U after peer review. We will present the newest modules in our workshop

**Final Frontier in LUTS. Targeting the Urothelium to Treat OAB, IC/BPS, Hypersensitive Bladder and Ketamine Cystitis**

**Chairs**

Hann-Chorng Kuo, Taiwan

**Speakers**

Hann-Chorng Kuo, Lori Birder, Michael Chancellor, Yao-Chi Chuang, Chun-Hou Liao

**Aims**

Urothelial dysfunction might play a role in the abnormality of expression of sensory receptors or release of transmitters in the suburothelial nerves or interstitial cells. In this regard, intravesical treatment to inhibit receptor expression or transmitter release might provide good therapeutic effects in the treatment of sensory urgency, interstitial cystitis/bladder pain syndrome, and overactive bladder (OAB). Intravesical pharmacotherapy has been used for the treatment of refractory OAB and IC/BPS, however, an important obstacle in the success of intravesical drug delivery arises from the low permeability of bladder epithelium. This workshop helps participants select suitable intravesical treatment for urothelial associated LUTD.

**Aims**

Obstructed defecation syndrome (ODS) can be due to different reasons (rectocele, enterocele, rectal prolapse, intussusception, pelvic floor dyssynergy). Management of ODS depends on a comprehensive understanding of the anatomy and function of the anorectal region. Aims of this workshop are to provide participants the basic knowledge on: 1) the normal anatomy of the anorectum, 2) the diagnostic procedures including imaging techniques, manometric and neurophysiologic tests and 3) the main guidelines and indications for the treatment of ODS.

**Speakers**

David Castro-Diaz, Tufan Tarcan, Christopher Chapple

---

**Aims**

Sling surgery is the most common procedure performed to treat stress urinary incontinence(SUI) in women. Although most women are cured of incontinence after surgery, a small minority develop voiding dysfunction clinically manifested as significant post-void residual, poor flow rate, urgency and urgency incontinence or pelvic pain which quite often are not easy to deal with. In the absence of clear guidelines, evaluation and management of post-sling voiding dysfunction continues to be controversial particularly in regards to time and choices of therapy. The aim of this workshop is to discuss the different options for the evaluation and management of voiding dysfunction after sling surgery for SUI.

---

**Aims**

This workshop aims to create a framework for clinicians and researchers to classify OAB patients according to underlying pathophysiology. We will review the 4 current pathophysiologic theories underlying idiopathic OAB symptoms: the urothelial/suburothelial hypothesis, the myogenic hypothesis, bladder ischemia, and stress-related/perceptual disturbances originating in the central nervous system. Participants will be exposed to different clinical screening strategies and/or biomarkers to identify patients with each pathophysiologic sub-type of idiopathic OAB. Evidence on the relationship between pathophysiology and the success of OAB treatment will be critically appraised in the context of validating a new clinical classification algorithm.

**Aims**

The aim of this workshop is to provide a disease specific, case based approach in the diagnosis, management and treating potential complications of the most common neurourologic conditions including spinal cord injury, multiple sclerosis and spina bifida. This will be undertaken by individual case based studies of these diseases in a step wise manner involving the audience in understanding the best management of neuropathic bladder in context of different pathologies. Special emphasis will be on the long term management and treatment of complications. An effort will be made to highlight the important differences in the management of a neuropathic bladder secondary to spinal cord injury vs multiple sclerosis.

**Neurogenic urinary tract dysfunction and Pregnancy**

**Chairs**

Miriam Waligora, Brazil

**Speakers**

Miriam Waligora, Milton Borreli Jr, Paulo Carvalho, Virginia Roncatti

**Aims**

The workshop fills an important gap bringing the experience of the faculty in following paraplegic/tetraplegic patients during pregnancy and the specific measures to take for delivery as well as how to best prevent urinary tract complications. It aims to give the audience the tools to give support for the patients' fears and focus the care on the real risk areas: infection, sphincter care, thromboembolism prevention and risk associated with sensibility/mobility limitations.

---

**Aims**

This ICS workshop provides shoulder to shoulder medical doctors and other health providers evidence-based biological rationale and clinical relevant hands-on training about pelvic floor rehabilitation in adults with different kinds of pelvic floor dysfunctions. What are the underlying concepts and principles of these modalities of pelvic floor rehabilitation? what kind of patients are most suitable and what is the level of evidence? How is this evidence linked and how is it implemented into clinical practice? The practical part with active participation of the attendees builds on the biological rationale and shows the participants innovative and effective assessment and treatment modalities.

**Speakers**

Sohier Elneil, Sherif Mourad, Serigne Gueye, Christopher Payne, Gill Brook

---

**Aims**

The aim of this workshop is to look at bladder and pelvic floor dysfunction that arises after fistulas occur, and the consequence of surgical repair. It will provide guidance on how to manage the complications using appropriate investigations and individualising care. A review of the anatomy and changes in bladder and pelvic floor function will also be undertaken, as well as introducing conservative management and strategies for long term prevention of complications and obstetric fistula in general.

---

**Aims**

The aims of this workshop are to provide: 1. An understanding of a physiotherapy assessment of UI and POP and the clinical reasoning undertaken to diagnose and plan the physiotherapy management of UI & POP 2. An opportunity to revise the functional anatomy of the PFM & how to assess PFM function 3. A forum to discuss the principles of teaching PFM exercise for motor control, strength training and functional training, including rationale, evidence base, clinical application and progression 4. A basic understanding of the functional interaction between the pelvic floor and trunk muscles 5. Evidence for the use of electrical stimulation and biofeedback in the management of PFM dysfunction, and rationale for their clinical application

**Aims**

This workshop aims to provide a practical course offering an interactive "hands on" environment for practitioners to improve their skills in urodynamics. The use of recorded tests, access to equipment and small groups means that individual problems can be addressed. At the end of the workshop delegates should feel more confident in their practice.

**Speakers**

Giovanni Mosiello, Enrico Finazzi-Agrò, Rejane Bernardes, Eliane Fonseca, Kwang Myung Kim, Stuart Bauer

---

**Aims**

Children with neurogenic bladder and bowel dysfunctions (NBBD) related to a congenital or acquired condition require lifelong evaluation and treatment, especially for continence and preservation of upper urinary tract. Different treatment options can be considered: rehabilitation, pharmacotherapy, endoscopic procedures and surgery reconstructions. A correct choice must be in one hand patient related always preserving the upper urinary tract and increasing quality of life (urinary and faecal continence). This workshop would like to offer a critical discussion on the diagnosis, treatment and follow-up of NBBD from childhood to adults, considering different worldwide scenarios and EBM results in order to increase knowledge of the participants.

**Aims**

Previous studies have shown that pelvic floor disorders can affect young sports practitioners, although they usually don't present classical risk factors. Trampoline gymnastics, basketball, volleyball or athletics are considered high-risk modalities for urinary and faecal incontinence. This workshop will provide an overview of the pelvic floor disorders in female athletes and the multidisciplinary approach using clinical, biomechanical and functional evaluation. Attendees will also be introduced to processing clinical evaluation using standards, protocols and Sport Medicine techniques.

**Aims**

Complications are unfortunately a reality facing every surgeon performing pelvic floor reconstructive procedures. In this workshop, four expert surgeons will be describing their personal tips and tricks in performing safe surgery. This will include native tissue repair, vaginal mesh procedures, laparoscopic and robotic sacrocolpopexy. The management of a broad range of complications will be discussed. We will also cover procedure selection and balancing efficacy and risks. The faculty will be discussing a number of their individual complications and how these were managed. This promises to be a practical, surgically orientated workshop.

# ICS Open Discussion Posters

## New for 2014!

Visit the new Open Discussion Poster sessions during lunch breaks on Wednesday and Thursday for your chance to take part in the discussion and vote for the best posters.

Expert **Poster Pilots** will guide delegates around the display and conduct delegates' questions to the authors.

Poster Pilots can be easily identified by the Pilot wings worn on their name badge.

A **Delegates' Choice Award** will go to the highest voted poster of each category. Use the ballot cards included in your delegate bag to vote for your favourite poster in each category.

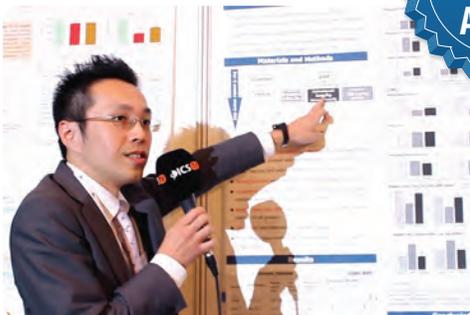

Posters are grouped by category and will be displayed for one day:

- 13:30 262 SHORT TERM OUTCOMES OF ALTIS® SINGLE-INCISION SLING PROCEDURE FOR STRESS URINARY INCONTINENCE IN AN AMBULATORY SETTING  
Dias J, Costa P, Xambre L, Costa L, Espiridião P, Rodrigues R, Amorim R, Oliveira V, Pereira M, Amaral J, Ferraz L
- 13:30 263 COMPARISON OF SINGLE-INCISION MID-URETHRAL TAPE (OPHIRA TM) AND TRANSOBTURATOR TAPE (SAFYRE TM) SUBURETHRAL SLING PROCEDURES FOR FEMALE STRESS URINARY INCONTINENCE  
Ahn J H, Chung H S
- 13:30 264 URETHRAL COMPLICATIONS AFTER TENSION-FREE VAGINAL TAPE PROCEDURES: CLINICAL SYMPTOMS, DIAGNOSIS, SURGICAL MANAGEMENT AND OUTCOME IN A SERIES OF NINE REPORTED CASES  
Larsson P, Sergouniotis F, Jarlshammar B
- 13:30 265 REASONS FOR OVERNIGHT STAY AFTER MID URETHRAL SLING (MUS) SURGERY  
Balchandra P, Rogerson L
- 13:30 266 POST PROSTATECTOMY STRESS URINARY INCONTINENCE EVALUATION. IS THE URODYNAMIC TEST A GOOD PREDICTOR OF INCONTINENCE SEVERITY?  
Drugowick F, D'Ancona C, Costa A
- 13:30 267 CORRELATION OF URINARY INCONTINENCE IN POSTPARTUM WITH THE CONDITIONS MATERNAL AND NEONATAL  
Barbosa A, Graziano J, Massóca M, França D, Brilio S, Marini G, Piculo F, Prudencio C

Wednesday, 22 October 2014

- 13:30 268 INCIDENCE OF URINARY INCONTINENCE DURING HIGH RISK PREGNANCY  
Averbeck M A, Gehring A C, Alexandre M d G, Foschi de Souza V, Carboni C, Gomes de Araújo T, Torres M, Peruch T, Prado Schmidt A, Camargo S F
- 13:30 269 DIFFERENCES IN BACTERIOLOGICAL ANALYSIS OF EXPLANTED TRANSVAGINAL MESH.  
Nikolavsky D, Madala A
- 13:30 270 SIMULATED OPERATIONS ARE AS ACCURATE AS URODYNAMICS IN PATIENTS WITH STRESS URINARY INCONTINENCE  
Tiecher J d F, Riccetto C, Bronzatto E, Palma P
- 13:30 271 LONG-TERM OUTCOMES OF TRANSOBTURATOR TENSION-FREE MIDURETHRAL SLINGS FOR THE SURGICAL TREATMENT OF STRESS URINARY INCONTINENCE IN WOMEN  
Averbeck M A, Wachter L, Dörr D, Schneider N, Ramos J, Ledesma A G, Prado Schmidt A, Camargo S F
- 13:30 272 THE SURGICAL OUTCOMES OF TRANSOBTURATOR TAPE IN PATIENTS WITH STRESS URINARY INCONTINENCE CONCOMITANT WITH OVERACTIVE BLADDER  
Oh C Y, Lee S H, Cho S T, Kim Y S, Lee T Y, Park H Y, Choi H Y, Lee S W
- 13:30 273 IS THERE A CORRELATION BETWEEN THE ABDOMINAL LEAK PRESSURE POINT, INCONTINENCE SEVERITY AND QUALITY OF LIFE IN PATIENTS WITH STRESS URINARY INCONTINENCE?  
Arribillaga L, Montedoro A, Garcia A, Ledesma M, Bengió R G, Pierantozzi A, Oulton G, Orellana S, Garcia Onto H, Epelde J, Bengió R H
- 13:30 274 CONCURRENT EXCISION OF MID-URETHRAL SLING DURING REPEAT MID-URETHRAL SLING IS NOT ASSOCIATED WITH CONTINENCE OUTCOMES  
Chan R, Masten D, Scovell J, Khavari R, Antosh D
- 13:30 275 EMPTY STRESS TEST AND SEVERITY OF THE STRESS URINARY INCONTINENCE  
Arribillaga L, Ledesma M, Garcia A, Bengió R G, Montedoro A, Oulton G, Pierantozzi A, Bengió R H
- 13:30 276 THE LONG TERM EFFICACY OF POST-OPERATIVE ADJUSTABLE MID URETHRAL SLING SYSTEM IN PATIENTS WITH INTRINSIC SPHINCTER DEFICIENCY AND RECURRENT STRESS URINARY INCONTINENCE.  
Kim J H, Kim H W, Kim H G, Kim J C, Seo J T
- 13:30 277 IS THERE A PLACE FOR SINGLE INCISION SLINGS AS SALVAGE SURGERY?  
Tutolo M, De Ridder D, Jamaer C, Dewulf K, Van Der Aa F
- 13:30 278 CLINICAL STUDY OF LONG-TERM EFFICACY OF TENSION-FREE VAGINAL TAPE IN THE MANAGEMENT OF FEMALE URODYNAMIC STRESS URINARY INCONTINENCE: RESULTS OF 5-, 7- AND 10-YEAR FOLLOW UP  
Grigoriadis C, Bakas P, Creatsa M, Liapis E, Karachalios C, Liapis A
- 13:30 279 CAN PARAVAGINAL AND PARAURETHRAL THICKNESS BE A PARAMETER TO EVALUATE STRESS INCONTINANCE  
Karademir A K, Malkoc E, Yesildal C, Kuru O, Yilmaz O
- 13:30 280 COMPARISON OF THREE PHYSIOTHERAPY METHODS FOR TREATMENT OF STRESS URINARY INCONTINENCE: IMPACT IN QUALITY OF LIFE AND MUSCLE FUNCTION  
Prudencio C, Barbosa A, Deróbio A L, Anézio A, Vesentini G, Almeida A P, Piculo F, Marini G
- 13:30 281 SUBCUTANEOUS TAPE: BEWARE OF SKINNY PATIENTS!  
Groeneweg J

Wednesday, 22 October 2014

- 13:30 282 TRANSURETHRAL INJECTION OF POLYACRYLAMIDE HYDROGEL (BULKAMID®) FOR TREATMENT OF RECURRENT STRESS URINARY INCONTINENCE AFTER FAILED REPEATED ANTI-INCONTINENCE SURGERY  
Martan A, Masata J, Svabik K, El Haddad R, Hubka P, Krhut J
- 13:30 283 THE CORRELATIONS OF INCONTINENCE-RELATED QUALITY OF LIFE MEASURES WITH SYMPTOM SEVERITY AND URODYNAMIC VARIABLES IN WOMEN WITH STRESS URINARY INCONTINENCE.  
Kim H G, Choi W S, Park H K, Paick S H, Lee H, Seo J T, Park W H, Kim H W, Lho Y S
- 13:30 284 THE EFFECTS OF ESTROGEN REPLACE TREATMENT (ERT) ON ESTROGEN RECEPTOR EXPRESSION OF SUI RAT MODEL  
Lijuan R
- 13:30 285 PREOPERATIVE FACTORS FOR PROGNOSIS ARTIFICIAL URINARY SPHINCTER IMPLANTATION OUTCOMES.  
Veliev E, Golubtsova E, Tomilov A
- 13:30 286 EVALUATION OF VAGINAL PH OF WOMEN UNDERGOING ELECTROSTIMULATION INTRAVAGINAL: PRELIMINARY RESULTS.  
Rett M T, Giraldo P C, Alves A T, Piassarolli V, Bardin M G
- 13:30 287 A RETROSPECTIVE CHART REVIEW ON THE SIGNIFICANCE OF BLADDER TRABECULATION IN PATIENTS WITH PRIMARY STRESS URINARY INCONTINENCE BEING TREATED WITH MID-URETHRAL SLING PROCEDURE  
Hessami S, Torbati K, Kaminskyj M, Sarcona J
- 13:30 288 SPARC SLING SYSTEM FOR TREATMENT OF FEMALE STRESS AND MIXED URINARY INCONTINENCE IN THE ELDERLY  
Sung L H, Noh C H, Chung J Y
- 13:30 289 PREVALENCE OF URINARY INCONTINENCE IN NULLIPAROUS WOMEN. ASSESSMENT OF PELVIC FLOOR SELF- EXERCISES IN NULLIPAROUS INCONTINENT YOUNG WOMEN.  
Bader G, Fermaut M, Pizzoferrato A C, El Assal A, Fauconnier A

### 14:30 - 16:00 Session 17 (Podium Poster) - Bladder Pharmacology

Location: Room 1

Chairs: Karl-Erik Andersson (United States), Edson Antunes (Brazil), Naoki Yoshimura (United States)

- 15:00 290 EFFECTS OF BOTULINUM TOXIN TYPE A ON ELECTRICAL STIMULATION-INDUCED RELEASE OF SUBSTANCE P, ATP AND ACETYLCHOLINE IN PORCINE BLADDER  
Bahadory F, Mansfield K J, Moore K H, Burcher E, Liu L
- 15:05 291 BETA3-ADRENERGIC RECEPTOR AGONIST MEDIATES COLD STRESS-INDUCED DETRUSOR OVERACTIVITY IN SPONTANEOUSLY HYPERTENSIVE RATS  
Imamura T, Ishizauka O, Ogawa T, Yokoyama H, Minagawa T, Nakazawa M, Nishizawa O
- 15:10 292 TLR4 INCREASES BLADDER CONTRACTILITY THROUGH MYD88/P38MAPK ACTIVATION IN STREPTOZOTOCIN-INDUCED DIABETIC MICE  
Ramos Filho A C, Santos K T, Teixeira S A, Mónica F Z, Muscará M N, Costa S K, Grant A D, Antunes E
- 15:15 293 THE ROLE OF THE TRPV3 CHANNEL IN MOUSE URINARY BLADDER FUNCTION AND SENSATION  
Lam M, Mann-Gow T, Zvarova K, King B, Moran M, Nelson M, Zvara P

Wednesday, 22 October 2014

- 15:20 294 IN VIVO AND IN VITRO FUNCTIONAL CHARACTERISTICS OF THE BLADDER IN MICE LACKING TRANSIENT RECEPTOR POTENTIAL MELASTATIN 2 (TRPM2) CHANNEL  
Kamei J, Aizawa N, Nakagawa T, Ito H, Sugiyama R, Akiyama Y, Niimi A, Kaneko S, Homma Y, Igawa Y
- 15:25 295 SILDENAFIL COMPARED WITH VARDENAFIL IN EXPERIMENTAL MODEL OF BLADDER OUTLET OBSTRUCTION IN RATS. WHAT IS MORE POTENT FOR THE TREATMENT OF VOIDING DYSFUNCTION?  
Moreno S L, Oliveira R R, Gaspar P, Sucupira D, Carvalho R, Cerqueira J B, Moraes M, Gonzaga-Silva L
- 15:30 296 PROTECT EFFECT OF A RHO-KINASE INHIBITOR ON BLADDER DYSFUNCTION IN A RAT MODEL OF CHRONIC BLADDER ISCHEMIA  
Akaiyata H, Nomiya M, Yabe M, Ogawa S, Kumagai S, Haga N, Kushida N, Yanagida T, Ishibashi K, Aikawa K, Yamaguchi O, Kojima Y
- 15:35 297 ACUTE DOSE-RELATED DIFFERENTIAL EFFECTS OF METHYLPHENIDATE ON MURINE CYSTOMETRIC PARAMETERS  
Joo K J, Seong B, Cho Y S, Kim K T, Kim K H, Chung H, Park H J, Kwon C H
- 15:40 298 THE EFFECT OF AN ARB, OLMESARTAN ON HYPERTENSION RELATED CORPUS CAVERNOSUM DYSFUNCTION IN THE SPONTANEOUSLY HYPERTENSIVE RAT  
Saito M, Shimizu S, Shimizu T
- 15:45 299 INVOLVEMENT OF 5-HT RECEPTOR SUBTYPES IN THE PUDENDAL NERVE INHIBITION OF NOCICEPTIVE AND NON-NOCICEPTIVE BLADDER ACTIVITY IN ANESTHETIZED CATS  
Matsuta Y, Schwen Z, Mally A, Shen B, Wang J, Roppolo J, de Groat W, Yokoyama O, Tai C
- 15:50 300 PHYSIOLOGICAL ROLE OF THE BLADDER ALPHA1D-ADRENOCEPTOR IN THE ACTIVATION OF SINGLE-UNIT PRIMARY BLADDER AFFERENT ACTIVITY IN RATS  
Aizawa N, Ito H, Sugiyama R, Kamei J, Akiyama Y, Fujimura T, Suzuki M, Homma Y, Igawa Y
- 15:55 301 DIRECT EVIDENCE FOR CONTRIBUTION OF MUSCARINIC RECEPTORS TO THE FACILITATION OF PRIMARY BLADDER MECHANOSENSITIVE C-FIBER AFFERENTS IN THE RAT  
Aizawa N, Ito H, Sugiyama R, Kamei J, Akiyama Y, Fujimura T, Suzuki M, Homma Y, Igawa Y

**14:30 - 16:00 Session 18 (Podium Poster) - Male Incontinence**

Location: Room B1

Chairs: Ervin Kocjancic (United States), Daniel Moser (Brazil)

- 15:00 302 HOW SHOULD CONTINENCE AND INCONTINENCE AFTER RADICAL PROSTATECTOMY BE EVALUATED? A PROSPECTIVE STUDY OF PATIENT-RATINGS AND CHANGES OVER TIME.  
Holm H V, Fosså S D, Hedlund H, Schultz A, Dahl A A
- 15:05 303 SEVERE POSTPROSTATECTOMY INCONTINENCE: THE ROLE OF URODYNAMICS.  
Holm H V, Fosså S D, Hedlund H, Schultz A, Dahl A A
- 15:10 304 RETROGRADE LEAK POINT PRESSURE VERSUS 24H PAD WEIGHT FOR ASSESSING POST PROSTATECTOMY INCONTINENCE WITHIN THE SLING-VERSUS-SPHINCTER RANDOMIZED STUDY  
Kass-Iliyya A, Solomon E, Andrich D, Hamid R, Greenwell T, Shah J, Mundy A, Ockrim J

- 15:15 305 CLINICAL INVESTIGATION INTO REAL-TIME ULTRASOUND IMAGING FOR FEEDBACK ON PELVIC FLOOR EXERCISES AND ITS INFLUENCE ON SELF-EFFICACY FOR PATIENTS EXPERIENCING URINARY INCONTINENCE POST RADICAL PROSTATECTOMY  
Goedl-Purrer B, Dalpiaz O, Christova M, Salchinger B
- 15:20 306 THE EFFICACY OF PILATES COMPARED TO PELVIC FLOOR MUSCLE TRAINING ASSOCIATED WITH ELECTRICAL STIMULATION IN THE RECOVERY OF POST-PROSTATECTOMY URINARY INCONTINENCE: A RANDOMIZED CONTROLLED TRIAL.  
Pedriali F, Gomes C, Soares L, Urbano M, Moreira E, de Almeida S
- 15:25 307 EFFECTS OF PROSTATE RADIOTHERAPY ON PELVIC FLOOR MUSCLES ACTIVITY AND SYMPTOMS OF URINARY INCONTINENCE: PRELIMINARY RESULTS  
Ribeiro A M, Peria F M, Ferreira C H J, Mateus-Vasconcelos E C L, Trevisan F A, Muglia V F, dos Reis R B, de Oliveira H F
- 15:30 308 MULTICENTER PROSPECTIVE STUDY OF THE ADVANCE XP MALE SLING: OUTCOME AND COMPLICATIONS  
Kretschmer A, Klehr B, Gozzi C, Gebhartl P, Homberg R, May F, Rehder P, Stief C G, Bauer M
- 15:35 309 SUPERFICIAL IMPLANTATION OF THE I-STOP TOMS TRANSOBTURATOR SLING IN THE TREATMENT OF POST-PROSTATECTOMY URINARY INCONTINENCE: DESCRIPTION OF A NOVEL TECHNIQUE AND SHORT-TERM CLINICAL OUTCOMES  
Galiano M, Slaoui H, Bryan K A, Barret E, Rozet F, Sanchez Salas R, Cathelineau X
- 15:40 310 SUCCESFULL RESTORATION OF INCONTINENCE IN MALE INCONTINENCE AFTER FAILED SLING SURGERY: AN IN-VIVO SOLUTION WITHOUT REMOVING THE SLING MATERIAL  
Soylu A, Onur A R
- 15:45 311 ARTIFICIAL URINARY SPHINCTER MALFUNCTION: IS IT NECESSARY TO SUBSTITUTE THE WHOLE PROSTHESIS?  
Sandri S D, Tagliabue A, Mombelli G

### 14:30 - 16:00 Session 19 (Podium Poster) - Aging and Continence Care

Location: Room B8

Chairs: Katherine Nancy Moore (Canada), Maria Helena Baena de Moraes Lopes (Brazil)

- 15:00 312 CONSERVATIVE TREATMENT FOR URINARY INCONTINENCE IN WOMEN IN RESIDENTIAL CARE: OUTCOMES, QUALITY OF LIFE, AND COST  
Arnold E, Milne D, English S
- 15:05 313 PROVIDING CONTINENCE CARE IN LONG-TERM AGED CARE FACILITIES: FINDINGS FROM A GROUNDED THEORY STUDY  
Ostaszkiwicz J, O'Connell B, Dunning T
- 15:10 314 RELATIONSHIP BETWEEN LIFESTYLE DISEASES AND THE FREQUENCY OF MEDICAL THERAPIES FOR LOWER URINARY TRACT SYMPTOMS: ANALYSIS OF 60,000 AGING MALES AND FEMALES  
Seki M, Yamauchi H, Matsuta Y, Aoki Y, Akino H, Yokoyama O
- 15:15 315 EVALUATING THE USE OF BOTULINUM TOXIN FOR THE TREATMENT OF DETRUSOR OVERACTIVITY IN OLDER PATIENTS  
Sammarco A, Ferry E, Patel D, Benchek P, Kikano E, Hijaz A, Mahajan S

Wednesday, 22 October 2014

- 15:20 316 ANXIETY ASSOCIATED WITH OVERACTIVE BLADDER IN ELDERLY WOMEN  
Alves A T, Jácomo R, Gomide L, Garcia P, Bontempo A, da Cruz B, Rett M T, Karnikowski M
- 15:25 317  PRIZE AWARD: Conservative Management Award  
UNDERSTANDING WHY CLINICIANS MAKE THE DECISION TO PLACE A URINARY CATHETER IN ACUTE MEDICAL CARE  
Murphy C, Prieto J, Fader M
- 15:30 318 APPROPRIATENESS OF INDWELLING URETHRAL CATHETER INSERTIONS IN THE EMERGENCY DEPARTMENT  
Ma A Y, Hunter K F, Rowe B, Wagg A
- 15:35 319 DEVELOPMENT AND VALIDATION OF AN ASSESSMENT TOOL CATHETERS FOR CLEAN INTERMITTENT CATHETERIZATION USER.  
Assis G, Negri F, Veiga S, Galli C, Moser A, Azevedo G
- 15:40 320 PROOF OF PRINCIPLE FOR A NON-MANUAL CATHETER VALVE; VOIDING AND STORAGE FUNCTION USING A VALVE OPENED BY VOLUNTARY STRAINING  
Drake M, Gammie A, Edwards J, Parke S, Ward K, Devery D, Timothy M
- 15:45 321 TOPICAL ZINC OXIDE BASED CREAMS IN A STRUCTURED CARE REGIMEN FOR THE TREATMENT OF INCONTINENCE ASSOCIATED DERMATITIS IN HOSPITALIZED ADULTS AND OLDER CHILDREN: A RANDOMIZED, CONTROLLED TRIAL  
Buckley B, Dofitas R, Baltazar W, Quiambao P, Razor B
- 15:50 322 A RANDOMIZED CLINICAL TRIAL OF SELF-MANAGEMENT OF URINE FLOW IN LONG-TERM INDWELLING URINARY CATHETER USERS  
Wilde M, McMahon J, McDonald M, Brasch J, Fairbanks E, Shah S, Tang W, Wang W, Zhang F, Chen D (
- 15:55 323 CATHETER -ASSOCIATED LUTS AFTER TRANSURETHRAL RESECTION OF THE BLADDER OR PROSTATE – THE EFFECT OF FESOTERODINE IN THE ACUTE PHASE  
Bannowsky A, Vollmer I, Ückert S, van Ahlen H

### 14:30 - 16:00 Session 20 (Podium Poster) - Lower Urinary Tract Symptoms in Women 1

Location: Room 3

Chairs: Linda Brubaker (United States), Simone Dos Reis Brandao da Silveira (Brazil)

- 15:00 324 HOME AND GROUP SUPERVISED PHYSIOTHERAPY FOR WOMEN WITH URINARY INCONTINENCE IN THE PRIMARY CARE OF SUS IN BRAZIL.  
Figueiredo E M, Vaz C, Sampaio R
- 15:05 325 AN EXPERT SYSTEM TO ENHANCE PATIENT SELF-MANAGEMENT OF FLUID INTAKE  
Gammie A, Long A, Casey L
- 15:10 326 ASSESSMENT OF OVERACTIVE BLADDER AND URGENCY URINARY INCONTINENCE SIX WEEKS AFTER VAGINAL DELIVERY  
Diez Itza I, Goyeneche L, Uranga S, Salgueiro D, Goiri C, Lekuona A
- 15:15 327 ONABOTULINUMTOXINA DEMONSTRATES SIMILAR IMPROVEMENTS IN URINARY INCONTINENCE AND QUALITY OF LIFE REGARDLESS OF THE USE OF CLEAN INTERMITTENT CATHETERISATION OR THE PRESENCE OF URINARY TRACT INFECTION IN PATIENTS WITH OVERACTIVE BLADDER  
Everaert K, Gruenenfelder J, Schulte-Baukloh H, Guard S, Zheng Y, Sussman D

Wednesday, 22 October 2014

- 15:20 328 EFFICACY AND SAFETY OF INITIAL 10MG SOLIFENACIN TREATMENT IN FEMALE OAB PATIENTS  
Yoon H, Lee D H, Chung W S, Hong J Y, Cho S T
- 15:25 329 DOES S3 OR S4 STIMULATION CONFER FAVOURABLE RESULTS IN SACRAL NERVE STIMULATION FOR FUNCTIONAL BLADDER PROBLEMS?  
Chandra L, Lunawat R, Harris N
- 15:30 330 A COST-EFFECTIVENESS ANALYSIS OF ONABOTULINUMTOXINA FOR OVERACTIVE BLADDER IN PATIENTS WHO ARE INADEQUATELY MANAGED WITH ANTICHOLINERGIC MEDICATIONS IN SPAIN.  
Errando-Smet C, Larrea G, Cidre J, Loveman C, Khalaf K, Aracil J, Stanisic S, Lister J
- 15:35 331 MULTICENTER ANALYSIS OF 10 YEARS FOLLOW UP AFTER REPEAT INTRAVESICAL BOTULINUM TOXIN-A INJECTIONS IN PATIENTS WITH DETRUSOR OVERACTIVITY  
Rahnamafi M, Marcelissen T, Ong F, Snijders J, De Vries P, van Koeveeringe G
- 15:40 332 DORSAL ONLAY BUCCAL URETHOPLASTY (DOBU) IN THE FEMALE IS DURABLE AND IS NOT ASSOCIATED WITH INCONTINENCE USING LUTS INSTRUMENTS VALIDATED IN FEMALES  
Powell C, Daniels D
- 15:45 333 IS THERE A RELATIONSHIP BETWEEN THE COMPLAINTS OF THE AMOUNT OF URINE LOSS AND THEIR OBJECTIVE AND SUBJECTIVE MEASUREMENTS?  
Vasconcelos C T M, Vasconcelos Neto J A, Bezerra L R P S, Karbage S A L, Frota I P R, Bezerra K C, Bizarria L B, Macedo S R, Augusto K L, Rocha A B O, Oriá M O B, Santos Z M S A
- 15:50 334 ACUPUNCTURE IN THE MANAGEMENT OF OVERACTIVE BLADDER SYNDROME  
Li C, Pakzad M, Lee J, Green J, Philp T
- 15:55 335 UROTHELIAL DYSFUNCTION AND CHRONIC INFLAMMATION IN DIABETES MELLITUS PATIENTS WITH OVERACTIVE BLADDER SYNDROME: AN IMMUNOHISTOCHEMISTRY STUDY  
Lee C, Liu H, Wang C, Kuo H

# Scientific Programme

## Thursday, 23 October 2014

# Visit the 2014 ICS Booth

Don't forget to stop by the ICS booth where you can:

- ▶ Become an ICS member
- ▶ Take part in our competition
- ▶ Report your Annual Meeting experience on 
- ▶ Print abstracts
- ▶ View video abstracts
- ▶ Meet the ICS Office team
- ▶ Find out about next year's meeting
- ▶ And much more!

## Free Abstracts USB

Go to our sponsor's booth to collect your free USB stick containing the full 2014 Scientific Programme. Find details on your USB stick ticket.

**Thursday, 23rd October 2014****14:30 - 16:00****Room B****Workshop 42****Incontinence Associated Dermatitis (IAD): Can we prevent it? (Free workshop)**

---

**Chairs**Vera Santos, Brazil

---

**Speakers**Vera Santos, Rosangela Oliveira

---

**Aims**

The workshop aims to present and discuss one of the most frequent and important Moisture Associated Skin Damage (MASD) such as the Incontinence Associated Dermatitis (IAD). This is a relevant issue in continence care, negatively impacting the quality of life of incontinent people. What are the available evidences about IAD risk and predictive factors besides its prevention? What are the challenges for its prevention and management in different health settings? How can IAD be assessed in a systematic way? These are just some of the issues this workshop aims to cover.

- 13:30 563 PATIENT INITIAL TREATMENT PREFERENCE IS ANTICHOLINERGIC THERAPY OVER ONABOTULINUMTOXINA FOR URGENCY URINARY INCONTINENCE REGARDLESS OF SYMPTOM SEVERITY  
Jahromi M S, Alonzo D, Gomez C S
- 13:30 564 THE EFFICACY AND TOLERABILITY OF TARAFENACIN, A NEW MUSCARINIC ACETYLCHOLINE RECEPTOR M3 ANTAGONIST IN PATIENTS WITH OVERACTIVE BLADDER; RANDOMIZED, DOUBLE- BLIND, PLACEBO-CONTROLLED PHASE 2 STUDY  
Park J, Song M, Kim J H, Han J, Lee J Z, Oh S, Seo J T, Choi J B, Park S, Kim K S, Park W H, Choo M
- 13:30 565 THE EFFICACY AND SAFETY OF FLEXIBLE DOSE IMIDAFENACIN (0.2MG OR 0.4MG), FOR THE TREATMENT OF OVERACTIVE BLADDER AND NOCTURIA  
Yamanishi T, Kaga K, Fuse M, Uchiyama T, Shibata C, Sakakibara R

Thursday, 23 October 2014

- 13:30 566 MIRABEGRON IN TREATMENT OF NEUROLOGICAL OVERACTIVE BLADDER IN MULTIPLE SCLEROSIS PATIENTS  
Risi O, Cito L, Andretta E, Conigliaro R, Augello G
- 13:30 567 DOES BACTERIAL VACCINE BECOME CLINICALLY SIGNIFICANT IN NEUROGENIC BLADDER PATIENTS AT CLEAN INTERMITTENT CATHETERIZATION?  
Ordaz Jurado G, Bonillo Garcia M, Betancourt Hernández J, Arlandis Guzman S, Avargues Pardo A, Broseta Rico E, Boronat Tormo F
- 13:30 568 CHARACTERIZATION OF MUSCARINIC RECEPTOR BINDING OF FESOTERODINE AFTER ORAL ADMINISTRATION IN RATS  
Yamada S, Yoshida A, Ito Y
- 13:30 569 INTRAVESICAL INSTILLATION OF LIPOSOME ENCAPSULATED ONABOTULINUMTOXINA FOR PATIENTS WITH OVERACTIVE BLADDER – A PILOT CLINICAL STUDY  
Jiang Y, Lee C, Kuo H
- 13:30 570 THE EFFECTS OF CHRONIC NITRIC OXIDE SYNTHESIS INHIBITION ON BLADDER FUNCTION IN PARTIAL OUTLET OBSTRUCTED MICE  
Lancia Pereira M, Arturo Levi D´Ancona C, Rojas-Moscoso J A, Saragossa Ramos-Filho A C, Zakia Taufic Mónica F, Antunes E
- 13:30 571 HOW LONG CAN ANTIMUSCARINIC TREATMENT BE EFFECTIVE IN TREATMENT OF OVERACTIVE BLADDER – ANALYSIS OF THE PREDICTIVE FACTORS  
Hsiao S, Liao C, Kuo H
- 13:30 572 PREDICTORS OF URINARY RETENTION IN PATIENTS UNDERGOING OPEN RENAL SURGERY WITH THORACIC EPIDURALLY ANALGESIA: A POOLED ANALYSIS  
Burkhard F, Wuethrich P Y
- 13:30 573 ORAL ADMINISTRATION OF PROSLTIAMINE IMPROVED THE SYMPTOMS IN PATIENTS WITH OVERACTIVE BLADDER ASSOCIATED WITH HTLV-1-RELATED MYELOPATHY/ TROPICAL SPASTIC PARAPARESIS, AND ALSO REDUCED URINARY BIOMARKERS.  
Matsuo T, Nakamura T, Miyata Y, Ohba K, Sakai H
- 13:30 574 THE EFFECTS OF TOLTERODINE AND 5-HYDROXYMETHYL TOLTERODINE (5HMT) ON CARBACHOL-INDUCED CONTRACTION IN HUMAN BLADDER SMOOTH MUSCLES IN NORMAL STATE AND IN DETRUSOR OVERACTIVITY ASSOCIATED WITH BENIGN PROSTATIC HYPERPLASIA  
Yamanishi T, Fuse M, Kaga K, Shibata C, Uchiyama T, Sakakibara R
- 13:30 575 SUPERIOR EFFICACY OF COMBINATION PHARMACOTHERAPY FOR TREATMENT OF NEUROGENIC DETRUSOR OVERACTIVITY  
Fraser M O, Lloyd J C, Le N B, Wiener J S, Dolber P C
- 13:30 576 PERSISTENCE WITH MIRABEGRON IN PATIENTS WITH OVERACTIVE BLADDER: A COMPARATIVE STUDY OF MIRABEGRON AND ANTIMUSCARINICS.  
Ogihara K, Kaguyama H, Sakamoto H, Aonuma K, Matsuda K, Nakahira Y, Yanaihara H, Asakura H
- 13:30 577 USEFULL OF INTRAVESICAL INSTILLATION OF HYALURONIC ACID AND CHONDROITIN SULPHATE IN PREVENTING RECURRENT BACTERIAL CYSTITIS  
Adile B, Calagna G, Adile G, Granese R, Polito S, Saitta S, Speciale P, Gugliotta G
- 13:30 578 A COMPARATIVE STUDY ON THE EFFICACY OF SOLIFENACIN SUCCINATE IN PATIENTS WITH URINARY FREQUENCY WITH OR WITHOUT URGENCY  
Han J, Lee K, Park W H, Park C H, Lee J G, Lee J Z, Kim D Y, Na Y G, Kwon D D, Kim K S, Park S, Choo M

- 13:30 579 EVALUATING THE MAGNITUDE OF IMPROVEMENTS IN PATIENT-REPORTED OUTCOMES BY AGE IN OVERACTIVE BLADDER PATIENTS: A POOLED ANALYSIS OF TWO MIRABEGRON CLINICAL TRIALS  
Lipsitz D, Frankel J, Berner T, Reckard G, Eaddy M, Campbell C
- 13:30 580 100 UNITS OF INTRA-DETRUSOR ONABOTULINUMTOXIN A FOR IDIOPATHIC OVERACTIVE BLADDER PATIENTS REFRACTORY TO ANTIMUSCARINIC THERAPY  
Salazar A, Iglesias T, Svicarovic I, Acuña A, Vicherat C, Miranda A
- 13:30 581 COMBINED INTRAVESICAL TRIGONAL AND URETHRAL INJECTIONS OF ONABOTULINUMTOXINA IN THE TREATMENT OF PATIENTS WITH HYPERSENSITIVE BLADDER AND VOIDING DYSFUNCTION – A PILOT STUDY  
Chen S, Jiang Y, Liao C, Kuo H
- 13:30 582 A PROSPECTIVE, MULTICENTER, OBSERVATIONAL STUDY TO ESTIMATE THE DRY MOUTH IN OVERACTIVE BLADDER PATIENTS TREATED WITH SOLIFENACIN  
Park J, Chun J, Park W H, Kim K S, Park S, Han J, Oh S, Kim J C, Choi J B, Kim J H, Seo J T, Choo M
- 13:30 583 BETA-3 RECEPTOR AGONIST, MIRABEGRON RELAXES ISOLATED PROSTATE FROM HUMAN AND RABBIT: NEW THERAPEUTIC INDICATION  
Calmasini F B, Candido T T, Alexandre E C, D'Ancona C, Silva D, de Oliveira M A, De Nucci G, Antunes E, Mónica F Z
- 13:30 584 COMBINATION THERAPY WITH SOLIFENACIN 10 MG AND TAMSULOSIN 0.4 MG ORAL FOR URGENCY URINARY INCONTINENCE IN MEN. EFFICACY AND SAFETY RESULTS  
Manasia P, Alcover J, Benages J, Miguel J, Gonzalez P
- 13:30 585 PROPIVERINE ER AND EFFECTS OF FLEXIBLE DOSING IN 1335 PATIENTS WITH OAB: RESULTS OF A NON-INTERVENTIONAL STUDY  
Eisenhardt A, Schneider T, Murgas S, Oelke M

### 13:30 - 14:30 Session 38 (Open Discussion Poster) - Urodynamics

Location: Poster Area

Poster Pilots: Kevin Rademakers (Netherlands), Rogerio de Fraga (Brazil), Paulo Rodrigues (Brazil), Flavio Trigo Rocha (Brazil), Enrico Finazzi Agro (Italy), Homero Gustavo Campos Guidi (Brazil), Richard J Millard (Australia), Julio Resplande, (Brazil)

- 13:30 586 EFFICACY OF HOLMIUM LASER ENUCLEATION OF PROSTATE ACCORDING TO PREOPERATIVE PATIENTS' CHARACTERISTICS: PROSTATE SIZE, BLADDER OUTLET OBSTRUCTION, DETRUSOR OVERACTIVITY AND DETRUSOR CONTRACTILITY  
Ryoo H S, Kim T H, Seo S I, Jeon S S, Lee K
- 13:30 587 EFFICACY OF A NEW INJECTION REGIME FOR ONABOTULINUMTOXIN A IN IDIOPATHIC AND NEUROGENIC DETRUSOR OVERACTIVITY: ARE 10 LOCATIONS ENOUGH?  
Alloussi S H, Naique S, Alloussi S
- 13:30 588 IS BLADDER WALL THICKNESS DEPENDENT ON PRESENCE OF URGENCY VS. MIXED URINARY INCONTINENCE SYMPTOMS?  
Verghese T, Rachaneni S, McCooty S, Brookes V, Middleton L, Latthe P
- 13:30 589 ABDOMINAL STRENGTH IN VOIDING PHASE : A RISK FACTOR OF RECURRENT URINARY TRACT INFECTIONS IN WOMEN  
Salunas J, Gomes M J, Virseda M, Esteban M, Méndez S

Thursday, 23 October 2014

- 13:30 590 URODYNAMICS FOR LOWER URINARY TRACT SYMPTOMS AFTER MIDURETHRAL SLING REMOVAL IN WOMEN  
Coskun B, Zimmern P, Lavelle R, Alhalabi F, Lemack G
- 13:30 591 URINARY TRACT INFECTION AFTER URODYNAMIC STUDY: WHO IS MORE LIKELY TO GET THIS?  
Emmanuel N, Robinson L, Fazili Z, Masood S
- 13:30 592 FACTORS ASSOCIATED WITH DIAGNOSIS OF DETRUSOR OVERACTIVITY IN WOMEN.  
Verghese T, Rachaneni S, Brookes V, Middleton L, Latthe P
- 13:30 593 URETHRAL FUNCTION MEASUREMENTS; DIFFERENCES AMONG SEVERAL URINARY INCONTINENCE SUBTYPES  
Mueller M, Kenton K
- 13:30 594 URODYNAMIC STUDIES FOR ASSESSMENT OF CONTINENCE AFTER CONTINENT CATHETERIZABLE CUTANEOUS URINARY STOMA BASED ON MITOFANOFF PRINCIPLE AND YANG-MONTI TECHNIQUE  
Yassin M, Abdelwadood M, Shaker H, Saffan A, Radwan A, Ragy S
- 13:30 595 DECREASE OF BLADDER CONTRACTILITY IS SLOWER THAN INCREASE OF FLOW AFTER PROSTATIC OBSTRUCTION SURGERY  
Mombelli G, Oliva I, Sandri S D
- 13:30 596 URODYNAMIC STUDY AND CYSTOSCOPIC FINDINGS IN PATIENTS PRESENTED WITH PRIMARY NOCTURNAL ENURESIS.  
Akha Weas I
- 13:30 597 DOES DETETHERING SURGERY FOR TETHERED CORD SYNDROME IMPROVE BLADDER FUNCTON  
Ustuner M, Yilmaz H, Yavuz U, Ciftci S, Aynur B S, Ozkurkcugil C
- 13:30 598 PATIENT SATISFACTION AFTER URODYNAMICS – A PROSPECTIVE STUDY.  
Sait M S, Mitha N, Fazili Z, Masood S
- 13:30 599 HIPPOCAMPUS THE PLAYMAKER IN THE SENSATION OF URGENCY IN OAB  
Tsang W, Kong J, Tracey I, Reynard J
- 13:30 600 ASSESSMENT OF SEXUAL FUNCTION IN PATIENTS SUBMITTED TO SACRAL NEUROMODULATION  
Gil-Sousa D, Castanheira de Oliveira M, Gomes M J, Soares J, Fraga A
- 13:30 601 PREDICTIVE SYMPTOMS OF OVERACTIVE DETRUSOR IN MAN AND WOMEN WITH OVERACTIVE BLADDER SYNDROME  
Arribillaga L, Ledesma M, Bengió R G, Garcia A, Epelde J, Orellana S, García Onto H, Montedoro A, Oulton G, Bengió R H
- 13:30 602 PREVALENCE OF PRE-OPERATIVE URODYNAMIC ABNORMALITIES IN WOMEN WITH DEEP INFILTRATING ENDOMETRIOSIS: A DESCRIPTIVE STUDY.  
Resende Júnior J A D, Buere RT, Guerra C S, Sessa F V, Aragão L C, Soares Raymundo T, Oliveira M A P, Crispi C, Fonseca M F
- 13:30 603 A NON-INVASIVE MEASUREMENT OF ABDOMINAL PRESSURE FOR URODYNAMIC STUDY  
Marson F, Vendryes C, Kobac W, Kocjancic E

- 13:30 604 DETRUSOR FORCE IN WOMEN: EVALUATION FROM MATHEMATICAL MODELING OF PRESSURE-FLOW STUDIES AND ANALYSIS OF THE EFFECT OF AGEING ON THE DETRUSOR FORCE.  
Valentini F, Nelson P, Robain G, Zimmern P
- 13:30 605 TO EVALUATE THE ROLE OF PRE-OPERATIVE AND POST-OPERATIVE URODYNAMICS IN WOMEN WITH VESICO-VAGINAL FISTULA.  
Goel A, Patil S, Sankhwar S, Singh H
- 13:30 606 BLADDER OUTLET OBSTRUCTION VERSUS POWER CONSUMPTION PROCESS – SIMILAR IN URODYNAMICAL PARAMETER BUT DIFFERENT IN THERAPY  
Alloussi S H, Bleser T, Naique S, Alloussi S
- 13:30 607 COULD NON-INVASIVE UROFLOWMETRY PARAMETERS CHANGE THE DIAGNOSIS OF BLADDER OUTLET OBSTRUCTION IN MALE PATIENTS?  
Levi A, Vainrib M, Leibovitch I
- 13:30 608 URINARY SYMPTOMS AND URODYNAMIC FINDINGS IN WOMEN WITH PARAMETRIAL ENDOMETRIOSIS: AN EXPLORATORY STUDY.  
Resende Júnior J A D, Buere RT, Guerra C S, Sessa F V, Aragão L C, Soares Raymundo T, Oliveira M A P, Crispi C, Fonseca M F
- 13:30 609 A SIMPLIFIED APPROACH TO DISTINGUISH BETWEEN DIFFERENT FORMS OF URINARY INCONTINENCE USING A SHORT FORM OF URINARY INCONTINENCE QUESTIONNAIRE – DOES IT CORRELATE WITH THE VIDEOURODYNAMIC ASSESSMENT?  
Alloussi S H, Mürtz G, Naique S, Michel F, Wagenpfeil S, Alloussi S
- 13:30 610 PROPHYLACTIC ANTIBIOTICS TO REDUCE THE RISK OF URINARY TRACT INFECTIONS AFTER URODYNAMIC STUDIES IN WOMEN WITH ADVANCED PELVIC ORGAN PROLAPSE  
Averbeck M A, Foschi de Souza V, Prado Schmidt A, Camargo S F
- 13:30 611 CATHETERLESS LONG-TERM AMBULATORY URODYNAMIC MEASUREMENT USING A NOVEL THREE-DEVICE SYSTEM  
Wille S, Paas J, Tenholte D, Schumacher P, Muthen N, Engelmann U
- 13:30 612 THE APPLICATION OF VIDEO URODYNAMICS IN INVESTIGATING AND TREATMENT URETHRAL DIVERTICULAE  
Ahmad S, Rodgers A, Fulford S
- 13:30 613 DYSFUNCTIONAL VOIDING AND URODYNAMIC CHANGES IN WOMEN WITH BLADDER ENDOMETRIOSIS.  
Resende Júnior J A D, Buere RT, Guerra C S, Sessa F V, Aragão L C, Soares Raymundo T, Oliveira M A P, Crispi C, Fonseca M F
- 13:30 614 ANTICHOLINERGIC CHANGE IN PERSISTANT OVERACTIVE BLADDER IMPROVES THE SYMPTOMS AND URODYNAMIC FINDINGS  
Yavuz U, Ciftci S, Ustuner M, Yilmaz H, Simsek E, Ozkurkcugil C
- 13:30 615 DOES DIABETES MELLITUS EFFECT URODYNAMIC FINDINGS OF DETRUSOR OVERACTIVITY  
Yilmaz H, Ciftci S, Yavuz U, Ustuner M, Yuksekkaya M, Ozkurkcugil C
- 13:30 616 THE URODYNAMIC CHARACTERISTICS OF MID URETHRAL OBSTRUCTION IN WOMEN  
Shibata C, Fuse M, Kaga K, Awa Y, Uchiyama T, Oikawa S, Kamai T, Hishinuma A, Sakakibara R, Yamanishi T
- 13:30 617 ANTIBIOTIC PROPHYLAXIS AND URODYNAMIC STUDIES  
Simsir A, Mammadov R, Kizilay F

**14:30 - 16:00 Session 39 (Podium Poster) - Lower Urinary Tract Symptoms in Women 2**

**14:30 - 16:00 Session 42 (Podium Poster) - Overview of Benign Prostatic Obstruction**

Location: Room 1

Chairs: Ammar Alhasso (United Kingdom), Jorge Antonio Pastro Noronha (Brazil)

- 15:00 651 A PROSPECTIVE RANDOMIZED COMPARATIVE STUDY BETWEEN THE EFFECT OF TAMSULOSIN 0.4 MG AND 0.2 MG ON LUTS DUE TO BENIGN PROSTATIC HYPERPLASIA  
Eissa A, Gameel T, Adel Omar M, El-Bahnasy A H, Abdel Raheem A
- 15:05 652 IMPACT OF MORPHOMETRIC ANALYSIS OF PROSTATE ZONAL ANATOMY ON LOWER URINARY TRACT SYMPTOM: COOPERATIVE ANALYSIS OF MRI-PROSTATE IN USA AND JAPAN  
Matsugasumi T, Ukimura O, Nakamoto M, Ushijima S, Kanazawa M, Toiyama D, Yamada Y, Fujihara A, Iwata T, Miki T, Palmer S, Gill I
- 15:10 653 LOCATION OF THE DESIRE TO VOID AND URINARY URGENCY IN MALE PATIENTS WITH LOWER URINARY TRACT SYMPTOMS  
Akino H, Yokokawa R, Matsuta Y, Ito H, Oyama N, Nojiri M, Yokoyama O
- 15:15 654 COMPARISON OF THE EFFICACY AND SAFETY OF TOLTERODINE SR 2MG AND 4MG COMBINED WITH DOXAZOSIN IN BENIGN PROSTATIC HYPERPLASIA WITH OVERACTIVE BLADDER SYMPTOMS : A PROSPECTIVE, RANDOMIZED CONTROLLED TRIAL  
Jung W, Kim T H, Jeong J, Seo S I, Jeon S S, Lee H M, Choi H Y, Lee K
- 15:25 655 A RANDOMIZED CONTROLLED STUDY TO EVALUATE THE EFFICACY OF TAMSULOSIN MONOTHERAPY AND ITS COMBINATION WITH MIRABEGRON ON PATIENTS WITH OVERACTIVE BLADDER INDUCED BY BENIGN PROSTATIC HYPERPLASIA  
Masumori N, Ichihara K, Fukuta F, Tsukamoto T, Iwasawa A, Tanaka Y
- 15:30 656 THE RESULTS OF RETROPUBIC PROSTATECTOMY, TRANSURETHRAL RESECTION OF PROSTATE AND HOLMIUM LASER ENUCLEATION; COMPARE RESULTS, AND THEN INVESTIGATE THE CAUSE OF DIFFERENT RESULTS  
Han J, Kim S J, Lee S D
- 15:35 657 CHANGE IN STORAGE SYMPTOMS FOLLOWING LASER PROSTATECTOMY: COMPARISON BETWEEN POTASSIUM-TITANYL-PHOSPHATE PHOTOSELECTIVE VAPORIZATION OF THE PROSTATE (PVP) AND HOLMIUM LASER ENUCLEATION OF THE PROSTATE (HOLEP)  
Cho M C, Baik S, You K H, Kim J K, Ha S B, Oh S, Kim S W, Paick J
- 15:40 658 THE RELATIONSHIP BETWEEN TESTOSTERONE SECRETION AND THE IMPROVEMENT OF BLADDER OUTLET OBSTRUCTION BY ALPHA1-BLOCKER IN MEN WITH BENIGN PROSTATIC HYPERPLASIA  
Matsukawa Y, Takai S, Mori A, Funahashi Y, Yamamoto T, Gotoh M
- 15:45 659 INTRAVESICAL PROSTATIC PROTRUSION (IPP), NOT PROSTATE VOLUME PREDICTS OUTCOMES OF HOLEP IN PATIENTS WITH LOWER URINARY SYMPTOMS: IMPLICATION FOR THE MECHANISM OF THE BLADDER OUTLET OBSTRUCTION.  
Kiuchi H, Soda T, Takezawa K, Okuda H, Takao T, Miyagawa Y, Tsujimura A, Nonomura N
- 15:50 660 EFFICACY AND SAFETY OF TADALAFIL 5 MG ONCE DAILY IN ASIAN MALES WITH LOWER URINARY TRACT SYMPTOMS SECONDARY TO BENIGN PROSTATIC HYPERPLASIA (BPH-LUTS): INTEGRATED ANALYSIS FROM 3 ASIAN DOUBLE-BLIND, RANDOMIZED, PLACEBO-CONTROLLED CLINICAL STUDIES  
Takeda M, Murakami M, Morisaki Y, Viktrup L

**14:30 - 16:00 Session 43 (Podium Poster) - Rehabilitation and Biomechanics**

Location: Room 3

Chairs: Renato Natal Jorge (Portugal), Tania Souza Lima (Brazil)

# Open Discussion Programme

# Open Discussion Programme

We have a new format for Open Discussion Posters and Videos. Authors are given a time slot in which are asked to stand by their poster/video available for discussion while local specialist "Poster Pilots" guide delegates around the days posters and ask questions to the author.

Delegates are asked to vote for their favourite poster for the new "Delegate's Choice Award"!

## Wednesday 22nd October

Open Discussion Session (12:30 - 14:00)

Open Discussion Videos

Anatomy & Biomechanics

Anorectal Dysfunction

Imaging

Lower Urinary Tract Symptoms in Women

Nocturia

Pain & Sexual Dysfunction

Pelvic Organ Prolapse

Rehabilitation

Stress Urinary Incontinence

## Thursday 23rd October

Open Discussion Session (12:30 - 14:00)

Basic Science

Epidemiology

Geriatrics

Male

Neurourology

Paediatrics

Pharmacology

Urodynamics

To view videos and abstracts from the open-discussion programme please visit the ICS booth in the Exhibition Area.

At the ICS booth you will also be able to:

- Visit the ICS Abstract Centre to watch videos and print abstracts
- Learn more about ICS membership and activities and how to get involved

You may also view the abstracts on the meeting USB stick or at one of the abstract viewing stations in the exhibition area.

# Entering a New Era in LUTS

## Astellas Satellite Symposium

Tuesday 21 October 18:00 – 19:30 hrs (Auditorium)

This symposium serves to evaluate the changing landscape of LUTS management, taking into account the expanding choice of treatments and the key challenges currently faced by physicians working in this field. Given the heterogeneity of the LUTS population, this symposium aims to identify the challenges of accurate assessment and diagnosis, and provide a scientific overview of the latest treatment approaches which can be effectively applied to different patient subgroups. With the introduction of different treatment options, an emphasis will be placed on a more tailored approach to symptom management for patients with LUTS.

In addition to reviewing the science and clinical data this symposium aims to provide physicians with practical solutions to LUTS Management and will therefore include an 'In the Clinic' session looking at real-life case studies with interactive discussion with the audience.

The faculty comprises an international expert panel of speakers with extensive experience in both clinical management of LUTS and pertinent academic research. We hope you can join us for what promises to be an interesting and topical symposium.

# Sponsored Symposia Programmes

Several educational satellite symposia organised by the industry are independently held during the conference period outside the official programme which is the responsibility of the organisers. Results of recently completed or ongoing studies may be presented. The views expressed in these satellite symposia are those of the speakers and not necessarily those of the International Continence Society.

Brazil

[www.incontinenciaurinariabc.org](http://www.incontinenciaurinariabc.org)

Recently created, the Brazilian Association for Continenace B.C Stuart, is a non-profit federal association whose role is to provide assistance and education with cultural and health issues as well as studies and research.

This project, the founding of the association, is due to the initiative of a small group of professionals and individuals involved in the diagnosis, care and treatment of urinary and fecal incontinence. These experts face the social and economic constraints in the daily management of affected patients and provide a glimmer of hope, support and advocacy to these people.

Through direct contact, which can be done by telephone, email or social media, the Brazilian Association for continence BC Stuart will provide the people who contact the association with:

- 1) Care and understanding.
- 2) Explanations and information about the specific problems of the person or, alternatively, refer the person to someone who can assist.
- 3) Provide information about diagnosis and treatment of the problem and alternatively refer the individual to someone who can.
- 4) Indicate the products that can help and where to buy them.

The artificial urinary sphincter mimics a healthy sphincter in that it keeps the urethra closed until the patient wants to urinate.

The artificial urinary sphincter ZSI 375 is a medical device that can be implanted in men. It is made of a silicone elastomer and is filled with saline solution. It mimics a healthy sphincter in that it keeps the urethra closed until the patient wants to urinate. This artificial urinary sphincter ZSI 375 is composed of two elements connected by kink-resistant tubing: a cuff is placed around the urethra and a control pump is placed in the scrotum.
