

Support for Physiotherapists (PT) treating urinary incontinence

On behalf of the ICS Physiotherapy committee I would like to invite you to a meeting for those interested in setting up or expanding conservative management programs in the treatment of urinary incontinence.

Purpose of the PT meeting

This meeting will focus on the administrative and management issues related to setting up of these services. Clinical aspects will be discussed on Friday June 15th during the ICS Educational Course in collaboration with the Argentine Urological Society- Sociedad Argentina de Urología SAU (WS 3/20) from 8:00 AM to 13:00.

PT Meeting time and location

14^o of June 2012 , 17-18:30hs in Hilton Hotel, conference room Atlantic 'B'

There is no registration or fee to this meeting, although everybody has to be registered into the Argentine Symposium "Avances en Urologia 2012" to attend this meeting as well as the Educational Course of the ICS.

PT Meeting agenda

There will be no formal agenda. The format will be an informal discussion.

Some possible topics include:

- Equipment needed to set up a clinic
- Space requirements
- Teaching materials for patients and MDs
- Documentation of treatments, forms and templates
- Staffing and staff training
- Communication with MDs
- Barriers to treatment

I would like to be prepared with resources and ideas. I would greatly appreciate an email ahead with any specific questions or issues you would like to discuss. Conservative management of urinary incontinence is a very beneficial treatment and I am excited to help increase its availability in your country.

I look forward to your email with questions to be discussed and our meeting in person in June.

Dr Beth Shelly, PT, DPT, WCS, BCB PMD
