### **300 word Mission statement to include your aims, goals and initiatives should you be elected**

The field of urogynecology, in particular pelvic floor muscle disorders, has been burgeoning as of late and urogynecologists in Asia are keeping pace with the newest developments. In Asia the proportion of women aged 65 and above who are experiencing these problems is increasing and treatments are becoming more readily available. Thus, there is increasingly high demand for services and products in this field.

The Board of Trustees is the controlling body of the ICS, which is keen to develop its own expertise in the area of pelvic floor medicine. However, despite Asia being a large and important territory, there is only one urologist from the entire Asian continent who sits on the current board. We are in desperate need of an urogynecologist to promote the acquisition of knowledge and improve clinical training in this field throughout Asia.

As president of the Pan-Asia Urogynecologists Association (PAUGA) and an experienced urogynecologist, I am motivated and ready to ally PAUGA with the ICS under a joint mission to give our female population new perspectives on achieving a healthy life.
