| What interests you in this ICS position (100 words maximum) | As a urologist, I have been involved in the management of neurogenic patients since 1992 (the department of urology, pitié salpêtrière hospital, Paris, F). Linked with the rehabilitation center of Garches, I had had the opportunity to lead an academic multidisciplinary programme with Pr. Pierre Denys. I have been involved in the process of ICI neurourology guidelines from 1998 to 2004 and I am part of all neurourology programmes of the main national and international congresses. Through a huge clinical and basic/clinical research activity, to chair this committee could be a good opportunity to increase international neurourology network, teaching and academic work. |
