Introduction

In order to promote Neuro-Urology around the world, the Neuro-Urology Promotion Committee of the International Continence Society (ICS) has decided to organize a "Neurogenic Bladder Day" course. We are proud that Florence was chosen for this comprehensive course on Neuro-Urology. The target group for this course is primarily general urologists, geriatricians, rehab and urogynecologists with interest in Neuro-Urology. However, we believe in the importance of a team group comprising other health professional figures and for this reason we also invite nurses and therapists to participate as well.

The "Neurogenic Bladder day course", will deal with neuro-physiology and neuro-pathophysiology of the lower urinary tract, the diagnostic workup of patients with (or suspected) neurogenic lower urinary tract dysfunction and the current treatment strategies in this population.

These topics are of primary interest for all healthcare professionals working in neuro-urology field. Particularly attention will be paid on different neurological diseases such as spinal cord lesions, multiple sclerosis, Parkinson's disease and stroke, but special topics will be addressed also according to the audience's demand.

Furthermore, participant will be provided with more detailed information through case discussions in an interactive final session.

It's a great opportunity for experience and knowledge exchange between faculty and participants.

I hope you will spend a worthwhile and pleasant time in Florence!

Presidente SIUD
Giulio Del Popolo

Scientific Programme

Wednesday, December 3rd

- 10.15 Greetings from Monica Calamai
Director of Azienda Ospedaliero-Universitaria Careggi
- 10.30 Welcome & Introduction of the Neuro-Urology Promotion Committee of the ICS to the audience
Giulio Del Popolo, Helmut Madersbacher
- 10.45 Neurophysiology and neuropathophysiology of the lower urinary tract - an update
Helmut Madersbacher
- 11.15 Coffee Break
- 11.30 The diagnostic workup of (suspected) neurogenic lower urinary tract dysfunction - Basic Diagnostics
When are urodynamics necessary?
Enrico Finazzi Agrò
- 12.00 Therapeutic options for the neurogenic underactive detrusor
Michele Spinelli
- 12.20 Therapeutic options for the neurogenic overactive and underactive sphincter – an overview
Helmut Madersbacher
Discussion
- 13.00 Lunch
- 14.00 Bladder & Bowel
Michele Spinelli
- 14.30 Electrical neuromodulation and electrical neurostimulation - what is in, what is out?
Thomas Kessler
- 15.00 The surgical management of neurogenic bladder: when and why
Giulio Del Popolo
- 15.20 Neurogenic bladder standardization and classification: an Italian proposal
Roberto Carone
- 15.40 Neuro-Urology in childhood
Mario De Gennaro, Giovanni Mosiello
- 16.00 Coffee Break
- 16.30 General Discussion
- 17.00 End of the first day

Thursday, December 4th

- 09.00 The urological management of the Parkinson patients
Enrico Finazzi Agrò
- 09.30 The urological management of the patient with Multiple Sclerosis
Giulio Del Popolo
- 10.00 The urological management of SCI patient
Michele Spinelli
- 10.30 The urological management of the patient with Stroke
Thomas Kessler
- 11.00 Neuro-Urology Unit : organization and skills
Helmut Madersbacher
- 11.30 Coffee Break
- 11.50 Audience & Faculty Interactive Session: Urodynamic cases discussion
Roberto Carone, Giulio Del Popolo, Enrico Finazzi Agrò, Thomas Kessler, Helmut Madersbacher, Michele Spinelli
- 13.00 End of the Course

Speakers

Roberto Carone | Torino
Mario De Gennaro | Roma
Giulio Del Popolo | Firenze
Enrico Finazzi Agrò | Roma
Thomas Kessler | Zurich
Helmut Madersbacher | Innsbruck
Giovanni Mosiello | Roma
Michele Spinelli | Milano
