

Vaginal Fistula Repair and Female Urethral Reconstruction.

An interactive hands on masterclass with soft-preserved cadavers

Hands on training course on female urethral anatomy and surgical treatment of vaginal fistula repair and urethral reconstruction. Different surgical techniques demonstrated and performed in small groups. Cadaver-student ratio - 1:3.

With the expert supervision of a world known team of Vaginal Fistula repair surgeons.

Venue:

- St George's Hospital, London

Date options:

- 5th -6th October 2016

Course Director:

- Mr A Digesu Consultant Obstetrician and Gynaecologist, Urogynaecology Subspecialist and Honorary Clinical Senior Lecturer at St. Mary's Hospital, Imperial College of London, UK.
- Prof. Sherif Mourad, Department of Urology, Ain Shams University, Cairo, Egypt.
- Dr. Suzy Elneil, Consultant Obstetrician and Gynaecologist, Urogynaecology Subspecialist at University College Hospital and the National Hospital for Neurology and Neurosurgery in London. Chair ICS Fistula Committee

Aim:

The cadaver lab will be a training experience focused on you and your need, with a maximum of three trainees per cadaver (fresh-frozen). This gives you a really focused opportunity to put into practice what you are learning during the course.

Faculty:

- **Dr A Digesu**, Consultant Obstetrician and Gynaecologist, Urogynaecology Subspecialist and Honorary Clinical Senior Lecturer at St. Mary's Hospital, Imperial College of London, UK
- **Prof. Sherif Mourad**, Department of Urology, Ain Shams University, Cairo, Egypt. New elected ICS General Secretary
