<b>Country of Residence</b>	Poland

<b>ICS Membership Number</b>	929

<b>Position applying for</b>	Educational Committee Chair
<b>Nominated by</b>	Scherif Mourad

<b>What interests you in this ICS position</b> (100 words maximum)	Two of our society main goals are science and education. However only by education we generate more high quality science. What is more, by education we can substantially improve our patient's care. ICS is an unique multispecialization society, therefore providing an unique opportunity for cross-specialization educational activities. I strongly believe that we are learning from each other, if elected my goal will be to promote such events, allowing members not only to listen to the lectures but also actively participate in workshops and seminars. In my opinion there is also a strong need to increase web based interactive educational activities.

<b>Outline the skills, abilities and experience and what qualifications, if any, you could bring to this position and committee.</b> (200 words maximum)	I work with educational activities within urology, neurourology, urogynecology and functional urology since over 15 years. Starting from being just a lecturer I became later member of the European Association of Urology Scientific Congress Committee. In this committee I gained the knowledge not only how to plan the events, attract audience, collaborate with multiple specialties, but also how to measure educational efficacy and respond to changing demands of the society. I have seen good and bad educational events. I know the traps and opportunities and strongly believe that the best education is the interactive one, with the audience actively participating in the event(either in case studies, meet the expert or in hands on training formats).Apart from lecturing I'm actively involved in managing educational web based portal for medical practitioners and patients. I'm also and editor of two national journals, which target audience are doctors, nurses and physiotherapists. Last but not least I'm organizing a number of congresses on neurourology, urogynecology functional urology, which are the educational platform for all allied professions, since I strongly believe that only the joint care of nurses, physiotherapists and doctors can deliver the best treatment to our patients.
