

ICS Educational Module Standard Operating Procedure

The ICS strategy over the next 5 years is to increase scientific and educational output and to become the go to society for scientific content. In addition to standardisation reports the ICS committees have been creating educational modules. Educational modules are central to the ICS strategy of facilitating the exchange of knowledge and experience among interdisciplinary health programmes. The ICS is seeking to develop and distribute high quality global health educational modules; define standards and competencies in health education; and address the needs of students, educators, and trainees as they seek to gain the skills and knowledge necessary to become healthcare leaders.

These modules consist of a PowerPoint available for download, a video and a peer reviewed published article. The outcome of these modules is that educators around the world can download the ICS module and present this to their students/colleagues. It is also expected that when an ICS speaker is invited to speak at an educational course or guest lecture the educational modules are used to provide the standardised educational content. The paper sent to NUU should be a systematic review of the content and should be in accordance to the 'PRISMA -checklist/guidelines'.

This document has been created to assist those Working /Committee groups who wish to create a module for the ICS and to ensure adherence with the approved process.

Vision for final product:

1. Has clearly outlined learning objectives at the beginning.
2. Peer reviewed paper published in NeuroUrology & Urodynamics
3. Video demonstrating/explaining key issues and/or techniques—goes beyond paper to increase depth of learning.
4. PowerPoint presentation.
5. The entire module could be used by an individual over the web or as part of a course for students directed by a mentor.

Working/Committees General Information

- The composition needs to be ICS members, multi-disciplinary, multinational and representing the most important stakeholders where appropriate. However if content is clearly for one discipline then sole disciplined groups are acceptable.
- Non ICS members can be part of a working group as experts or representatives of specific stakeholders but they must become an ICS member for the duration of their time on the project.
- Each group should choose a lead established at the outset who will also be the first or last author on the published paper. All members of the group will be responsible for the entire content of the module as a group. Note the lead of the group does not need to be the person who records the video. The presenter must have a clear speech, free of strong accent – see the guidelines document for preparing the module content (INSERT LINK WHEN READY).
- It is recommended that the module is presented to an audience at the annual meeting before it is recorded and where possible before the manuscript is sent for publication. This will provide valuable feedback.
- The module cannot be sponsored in any way and no bias should be given towards one particular product, pharmaceutical or equipment. Best practices must be followed in avoiding brand names. When there is any mention of specific product a disclaimer should

be added to the start of the document advising that ICS does not endorse this product over other products on the market.

- The ICS will not provide financial budget for face to face meetings of any group but will consider budget proposals for videoing the content.
- The ICS office will assist with setting up a forum for the group to exchange ideas and content for review. The office can also offer facilities for teleconference or WebEx, upon approval of a budget request.
- It is expected that a module should take no longer than 6 months to prepare.

Educational Module creation procedure

Stage	Action	Comment
Proposal Stage	Creation of committee/working group to prepare proposal.	This can be a committee who have decided to prepare a module or a group of ICS members.
Proposal Stage	Budget and proposal is sent to ICS office. Proposal should explain the module in no more than 2 pages outlining the aims and objectives, learning outcomes, target audience and requirement for module. Budget will only cover the costs of filming and editing costs. Budget can be prepared in conjunction with ICS Office who can assist with the best way to record the module.	ICS Office ensure no overlap with other working groups and will advise the appropriate committee. ICS office to notify Education, Standardisation committee of proposal in progress. Budget to be approved by Board of Trustees
Preparatory Stage	Working group reviews the literature, and prepares the manuscript.	Office will assist with creating online forums for easy discussion and monitoring/chasing if required.
Review Stage	Manuscript is sent to Education and Standardisation Steering Committees and Board of Trustees who review for educational value and standardisation adherence.	These committees are not commenting on the content of the module. The committees should respond within 2 weeks.
Publication Stage	Once approved the review paper can be sent for publication in the ICS journal, Neurourology & Urodynamics. The PowerPoint slides are then to be prepared and video recording will be completed in conjunction with the ICS office.	Article submitted to NUU should clearly reference International Continence Society (ICS) Educational Module. Discussion with the ICS office concerning best way to record content.
Implementation Stage	Once completed the ICS office will disseminate the content via the ICS website, social media and other outlets.	

Checklist:

- ☐ Working group created and chair appointed
- ☐ Budget and proposal sent to ICS Office

- ☐ Budget and proposal are reviewed and approved by Board of Trustees
- ☐ Working group prepares review paper
- ☐ Content reviewed by relevant Education, Standardisation Committees and Board of Trustees
- ☐ Paper submission to NUU
- ☐ PowerPoint and ideally video manuscript is prepared
- ☐ Video is recorded
- ☐ Video is edited
- ☐ Module is added to ICS website and advertised
