

2019 Hands-on Neuromodulation: Sacral, Pudendal, Tibial, Botulinum Toxin, Pelvic Pain

This two-part, hands-on symposium will offer a cadaver workshop as well as provide an updated review of neuromodulation.

- **General Symposium:** Friday, Oct. 4 at Greektown Casino-Hotel, Detroit
- **Hands-On Cadaver Lab Workshop:** Saturday, Oct. 5 at the Applebaum Simulation Learning Institute, Beaumont Hospital, Royal Oak (*registration is limited*)

Symposium intent

The intent of this CME activity is to discuss the role of tibial, sacral and pudendal neuromodulation as well as botulinum toxin for the treatment of voiding disorders and pelvic pain/pelvic floor dysfunction. This two-part symposium will provide an updated review of the status of neuromodulation therapies and utilize a hands-on cadaver lab to review pertinent anatomy and learn neuromodulation techniques.

Target audience

Urologists, urogynecologists and health care professionals interested in neuromodulation.

Symposium objectives

Following attendance at this symposium activity, the participant should be able to:

- apply the latest evidence-based data and state of the art care to improve management of voiding dysfunction and pelvic pain/pelvic floor dysfunction
- expand the use of tibial, sacral and pudendal neuromodulation and botulinum toxin as effective therapies for voiding dysfunction
- define and manage a patient with voiding dysfunction

Accreditation and credit

Beaumont is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Beaumont designates this live activity for a maximum of 13.5 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

William Nantau

Intra-operative Neurophysiology
Technologist

Symposium agenda

Friday, Oct. 4

General Symposium Greektown Casino-Hotel

7:30-8 a.m.	Registration & Breakfast
8-8:15 a.m.	Welcome and Introduction Kenneth M. Peters, M.D.
8:15-9:15 a.m.	Science of Neuromodulation Kenneth Gustafson, Ph.D.
9:15-9:45 a.m.	History of Neuromodulation in Urology Stefan De Wachter, M.D., Ph.D.
9:45-10:30 a.m.	Sacral Neuromodulation Kevin Benson, M.D.
10:30-10:45 a.m.	Break
10:45-11:30 a.m.	Optimizing Lead Placement/ Troubleshooting Stefan De Wachter, M.D., Ph.D.
11:30 a.m. to 12 p.m.	Pudendal Neuromodulation Kenneth M. Peters, M.D.
12-12:30 p.m.	Tibial Neuromodulation Larry Sirls, M.D.
12:30-1:15 p.m.	Lunch
1:15-1:40 p.m.	Trigger Point Injections for Pelvic Pain Jason Gilleran, M.D.
1:40-2 p.m.	Anatomic Study of Pelvic Floor Injections Larry Sirls, M.D.
2-2:30 p.m.	Neuromodulation for Pelvic Pain Kevin Benson, M.D.
2:30-3:15 p.m.	Neuromodulation with Botulinum Toxin Michael Chancellor, M.D.
3:15-3:30 p.m.	Break
3:30-4 p.m.	Neuromodulation in the Pediatric Population Megan Schober, M.D.
4-4:30 p.m.	The Future of Neuromodulation Kenneth M. Peters, M.D.
4:30-5:30 p.m.	Round-Table Discussion: Trouble Shooting, Case Presentations, Questions/Answers
5:30-7 p.m.	Buffet dinner reception at Greektown Casino-Hotel

Saturday, Oct. 5

Hands-on Cadaver Lab Beaumont Hospital, Royal Oak

7 a.m.	Shuttle bus from the Greektown Casino-Hotel to the Beaumont Applebaum Simulation Learning Institute
7:30-8 a.m.	Registration and Continental Breakfast
8-8:15 a.m.	Introduction and Lab Preparation Kenneth M. Peters, M.D.
8:15-8:55 a.m.	First breakout session (Refreshments available throughout sessions) Group A: Sacral neuromodulation, PNE and lead implant Group B: Anatomy and pudendal lead placement Group C: PTNS technique and integrating in practice Group D: Emerging Technologies (not FDA approved for OAB) StimGuard CanStim Implant Valencia E-coin Implant Bioness StimRouter Implant Group E: Pelvic floor trigger point injections/pudendal blocks Group F: Programming/EMG/ trouble shooting Group G: Botulinum toxin injections
8:55-9:35 a.m.	Second breakout session (groups will rotate for next seven sessions)
9:35-10:15 a.m.	Third breakout session
10:15-10:55 a.m.	Fourth breakout session
10:55-11:35 a.m.	Fifth breakout session
11:35 a.m. to 12:15 p.m.	Sixth breakout session
12:15-12:55 p.m.	Seventh breakout session
12:55-1:45 p.m.	Box lunch and post workshop discussion
2 p.m.	Bus departs for Detroit Metropolitan Airport and Greektown Casion-Hotel

Hands-on Neuromodulation

Friday, Oct. 4 and Saturday, Oct. 5, 2019

Registration

- Registration for cadaver lab is limited.
- Registrations accepted on a first-come, first-served basis.

Session registration and fee schedule

- ☐ **General symposium only, Friday, Oct. 4 (one day)**
☐ **\$250** for physicians not in training ☐ **\$100** for resident physicians and other non-physicians
- ☐ **General symposium, Friday, Oct. 4 and Hands-on Cadaver Lab, Saturday, Oct. 5 (both days)**
\$550 for all attendees
- ☐ Check here if you will be using the shuttle on Saturday, Oct. 4 for transportation to and from Beaumont, Royal Oak.

Fees/payment

The registration fee includes breakfast, lunch, break refreshments, dinner reception on October 4 and attendance at the educational lectures, syllabus materials and CME credit for each portion attended. For Saturday attendees, the registration fee also includes transportation from the MGM Grand Detroit Hotel to William Beaumont Hospital, and return to the airport or the MGM Grand immediately after the cadaver lab has ended. Continental breakfast and lunch on Saturday are also included. Payment may be made by Visa, Discover, MasterCard, American Express or by check made payable to "William Beaumont Hospital". The transaction will appear on your credit card statement as "WBH Cashiering."
