LISBON MASTERCLASS ON PROSTATE CANCER

LisPro

The perfect Masterclass

June 26 – 27 | **2020**

Learn with the Masters!

Prostate cancer research and understanding of the disease is in such permanent evolution that it becomes challenging to keep up with all the updates related to it. This is why ...

**LisPro, the Lisbon Masterclass on Prostate Cancer
is the most important, useful and effective meeting happening in 2020.**

With a program specially designed to provide, in just 2 days, a condensed review of the most recent guidelines, hot topics and advances on prostate cancer addressed at EAU, AUA, ASCO, ASTRO, ESMO, NCCN and ESTRO meetings

... this is the meeting you don't want to miss!

Lisbon is the sunniest European Capital making it the ideal setting to host this Masterclass! While Portugal has been voted the Best Destination in Europe three times in a row along with an "Oscar" for the Best Destination in the World, its capital won the Best Destination City and Best Destination City Break world awards twice

Come have fun and enjoy our early summer while you're learning with the best!

Save the date! See you in Lisbon!
