

URODYNAMICS COURSE			
Time	TOPIC	DISCUSSION AREAS	SPEAKER
9.00-9.15	Welcome	Introduction	
9.15-9.45	History and Clinical NeuroGynaecourological examination	LUT Function and Physiology (An ICS module exists); LUT symptoms Terminology (ICS 2002) History and Physical exam in female LUTS	Dr Mehnert
9.45-10.15	Non Invasive Urodynamics	Voiding Diary: Details about VD and its importance and how it helps (cases showing polyuria/nocturnal polyuria etc can be discussed) UFR and its clinical relevance : GUP related to UFR PVRU (a ICS teaching module exists)	Dr Tornic
10.15-10.45	Indications of Invasive Urodynamics in Female Urology	This lecture can detail on where Invasive UDS is indicated in OAB/Urge Urinary Incontinence ;SUI; POP . Here the Indian Guidelines on the subject will be discussed	Dr Pawan
10.45-11.00	Q & A		
11.00-11.15	COFFEE BREAK		
11.15- 11.55	Filling Cystometry	Aims; Basics of pressure ; Setting up the Equipment and Performing the study; initial troubleshooting ; Ensuring good quality control ; Concept and components of Good Urodynamic Practices (ICS) related to Filling Cystometry. Reading/Reporting/Interpreting Filling Cystometry traces	Dr Mehnert
11.55-12.25	Voiding Cystometry	We can emphasize on Female Underactive bladder/BOO in this section . The role and importance of Video Urodynamics in Female Voiding dysfunction can be emphasized with pre recorded videos of Video UDS studies. GUP related to Voiding cystometry Reading/Reporting/Interpreting Filling Cystometry traces	Dr Pawan
12.25-1.00	Artefacts in Urodynamics		Dr Tornic
1.00-1.15	Q&A		
1.15 – 1.45	LUNCH		
1,45-3.30	LIVE URODYNAMICS	SUI, OAB, Voiding dysfunction	
3.30- 5.00	CASE DISCUSSIONS	The Urogynecological Patient ; The Neurourological Patient ; Challenging Cases	Dr Pawan. Dr Mehnert. Dr Tornic
5.00-5.20	QUIZ		
5.20-5.30	CONCLUSION
