

**2nd International Symposium of Urodynamics of the Durand Hospital
of Buenos Aires**

2nd ICS Guest Lecture of Buenos Aires

16th December 2019

Objective:

The Symposium aims to address, from a practical point of view, applying to the daily clinic, the use of Urodynamic methods in urinary tract disorders.

Symposium description:

The Symposium will have specialists in the field, both national and international (ICS guests) with a recognized career in Urodynamics. The academic presentation format will be given through 3 types of formative interaction. The first to take place between 8-12 am consisting of 15 minutes presentations by the speakers with 5 minutes of subsequent discussion, including coffee break and lunch. These dissertations on basic and advanced topics in Urodynamics will be coordinated by both the Directors of the Symposium. Lunch to be held between 12-12:40 pm. And from 12:40-13:45pm cross-fire dissertations among the speakers that include topics under discussion or frequent controversy, the audience's participation will be regulated by the directors. And between 2:30-3:30 pm, an update on complex issues in urodynamics will be developed by the ICS guests .

Subsequently, after the closing of the Symposium, the audience will be asked to complete ICS format questionnaires in relation to the exposed contents and performance of the speakers and content, this will allow to improve the academic quality of the Symposium in the future.

Chair : Dr. Christian Cobreros (Hospital C. G. Durand , Bs. As.) (ICS)

Co Directors:

Dr. Enrique G. Penela (Hospital C.G. Durand, Bs As)

Dra. Monica del Villar (Hospital C.G. Durand, Bs. As.)

ICS Guests Lecture:

Prof. Dr. Carlos Levi D'Ancona (U. Campinas, San Pablo, Brasil) ICS

Prof. Dr. Howard Goldman (Cleveland Clinic, USA) ICS

Dr. Christian Cobreros (University of Buenos Aires, Argentina) ICS

Nationals Speakers: Prof. Dr. Gustavo Garrido (Hospital de Clínicas, Bs. As.)

Dr. Matías Gonzalez (Hospital Italiano, Bs. As.)

Dr. Sebastián Perez Junqueira (GEDREP, Bs. As.)

Dra. Gisela Ens (Centro de Urología, Bs. As.)

Dra. Ercilia Zubieta (Hospital Italiano, Buenos Aires)

Dr. Emilio Longo (Hospital Churruca Vizca, Bs. As.)

Audience:

Medical specialists and in training of both Urology, gynecology, and urogynecology who wish to deepen their knowledge in the area of Urodynamics.

Date, time and place:

It will take place on December 16th, 2019. As detailed in the symposium program, it consists of a theoretical format to be held in the Auditorium, in the Villanueva Pavilion of the Carlos G Hospital Durand

Government entities, University and Societies that will be involved in the Symposium:

Sponsorship and dissemination will be requested, according to the times and statutes of each entity, to the following governmental, university and corporate entities:

- University of Buenos Aires - UBA
- Argentine Society of Urology - SAU
- Latin American Pelvic Floor Association - ALAPP
- International Continence Society - ICS

PROGRAM

Venue	HOSPITAL CARLOS G. DURAND Pabellon Villanueva	
7:30 – 8:00	ACREDITATION TIME – WELCOME AND RECEPTION	
BASICS URODYNAMICS		
8:00 – 8:15	Physiology of urination	Dr. C. Cobreros
8:15 - 8:30	Introduction to urodynamics	Prof. H Goldman
8:35 - 8:50	How should I assess the patient who arrives at the urodynamic consultation?	Dra. E. Zubieta
8:55 – 9:10	How to make a good urodynamic trace and report according to the Good Urodynamic Practices (ICS)?	Dra. M. del Villar
9:15 – 9:30	Flowmetry and Urodynamic Study when and for whom?	Dra. G. Ens
9:35 – 9:50	Frequent errors in Urodynamic traces, how do I avoid them?	Prof. Dr. C D'Ancona
10:00 - 10:20	COFFEE BREAK	
ADVANCED URODYNAMICS		
10:25 – 10:40	Differentiating bladder Outlet obstruction from detrusor underactivity	Prof. H Goldman
10:45 – 11:00	Value of Videourodinamycs	Prof. Dr. G. Garrido
11:05 – 11:20	Characteristics of the urodynamics assessment of the neurogenic patients	Prof. Dr. C. D'Ancona
11:25 – 11:40	Value of bladder opening pressures in regular medical practice	Dr. M. González
11:45 – 12:00	Intersting urodynamic cases	Prof. H. Goldman
12:00 – 12:40	LUNCH BREAK	
CROSS FIRE		
12:45 - 13:10	SUI and Prolapse UD are mandatory?	YES: Dr. P. Junqueira NO: Dr. E. Longo
13:20 – 13:45	UDs prior BPH surgery, are they mandatory?	YES: Dr. M. Gonzalez NO: Dr. C. Cobreros
13:55 – 14:20	Mixed Urinary incontinence (OAB + IOE), Uds for all ?	YES: Prof D'ancona NO: Dr. G. Garrido
14:25 – 14:35	COFFEE BREAK	
UP TO DATE		
14:40 – 14:50	An overview of Overactive bladder, what is next ?	Prof. Dr. H Goldman
14:55 – 15:05	Value of Urodynamics post Value trial	Dr. C. Cobreros
15:10 – 15:20	Marion Disease: a new concept for an old disease	Prof. Dr. C. D'Ancona
15:30	Closure of the Simposium and ICS guest lecture
