

# Elected Position Application Form

By applying for an ICS elected position you must be nominated and seconded by two ICS members. Please advise them to send an e-mail to the ICS office confirming this. Please complete the information below and send the completed form to [info@ics.org](mailto:info@ics.org) by 1 April 2017 in order for your nomination to be considered.

We also ask that in addition to the below you also update your online "Biography" with your membership record outlining the experience and skills related to and your goals and initiatives for the post should you be elected (no more than 300 words): <https://www.ics.org/ContactEdit.aspx>

The Board of Trustees recommend that a trustee does not hold another elected position within the ICS. This is due to the time commitment of the role of trustee. If you are applying for both a trustee post and another ICS elected post then please state which position you would prefer in the event of being successful in both applications.

## Language

Whilst the ICS is an international organisation, English is the official language of the society. It is expected therefore that Trustees members must have a good understanding of spoken and written English, and should feel confident speaking within the Committee environment.

## APPENDIX I

### ICS policy on campaigning

Campaigning for ICS elected positions is not permitted by applicants or members. Any campaigning, be it positive or negative, will result in the disqualification of the candidate. The Board of Trustees' judgement will be final in determining whether a candidate has engaged in positive or negative campaigning. Negative campaigning is not permitted by any candidate or ICS member and will be considered a violation of the ICS Code of Conduct. This policy is in effect at all times and for any position.

**Prof. Emmanuel Chartier-Kastler, MD, PhD**

**Born 1960, Married, 3 children**

**Working at Pitié-Salpêtrière academic hospital (urology department), Paris and at Pierre et Marie Curie medical school, Sorbonne Universités, Paris 6 University, Paris, France**

Prof. E. Chartier-Kastler received his MD from Paris 6 University in 1989 and was accredited as a urologist in 1992. He is accredited as general surgeon and urologist. He was fellow and assistant professor between 1992 and 1998 in the department of urology of the academic Pitié-Salpêtrière hospital. Since September 2001, he is professor of urology at the department of urology, medical school Pierre et Marie Curie, University Paris 6, France. He is head of the functional urology programme including female and male urinary incontinence diagnosis and management, female pelvic floor disorder, urological malformations and neurourology. His research areas include incontinence diagnosis and management (pharmacological treatment, devices and surgery), overactive bladder (neuromodulation, botulinum toxin studies and other new treatments under development), BPH (new treatments) and neurourology. Fellows from Europe or Québec are routinely working in the department taking part of the surgical activity dedicated to this field linked with the major rehabilitation centers of Paris area.

Prof. Chartier-Kastler is an active member of the board of the French Association of Urology (AFU), past general secretary (2004-2007) and past chairman of the scientific committee, past member of the AFU Neurourology Committee and active member of the French speaking group of Neurourology (GENULF, past secretary general). He is involved in all major international congresses of urology as speaker, chairman and/or guest speaker. He was involved in the French consensus conference regarding urinary nosocomial infections (2004) and has been an active member of the committee for conservative treatment in the neuropathic area during the International Consultation on Incontinence (ICI) from 1998 to 2006 and the recent SIU-ICUD consultation on spinal cord injury as co-chair of a committee.

Teaching activities are of great importance as part of the development and research programme in the area of functional urology. He chaired within the last 6 years the French resident's teaching programme in this area and was also involved in the EUREP programme (2008-2012) as also active every year for ESU courses and EAU educational activities.

Prof. Chartier-Kastler has published more than 320 peer-reviewed articles and book chapters on topics related to urology, especially in the field of incontinence and neuro-urology. He is leading with Pr Giuliano (chair) and Pr Denys a public research unit (INSERM U 1179) dedicated to neuropharmacology of the bladder and sexual dysfunction, so that many students are working on for master or PhD degree. His running projects concern botulinum toxin for overactive bladder and BPH, evaluation of new drugs in this area and interstitial cystitis evaluation and animal models for study of neuromodulation mechanisms of action.

As a neurourologist he prepared the final report of the 2006 french congress of urology (100<sup>th</sup> congress, November 2006, Paris) : “ Neurogenic bladder and urological management” with Alain Ruffion (MD, PhD). Member of the ICS neurourology group he would like to promote knowledge and good practice in this area internationally and is the current chair of the ICS neurourology promotion committee (2014).

He has been member of the organizing committee of major international meetings (ICS-IUGA 2004 and 100<sup>th</sup> SIU 2007 congress) which took place in Paris and national meetings (French

congress organizer 2005, 2006 and 2007). He co-chaired the 2015 International UroGynecological Association congress in France (Nice, 2015 June 9 to 12). He is the French member of the IMC AUA.

## **APPENDIX I**

### **ICS policy on campaigning**

Campaigning for ICS elected positions is not permitted by applicants or members. Any campaigning, be it positive or negative, will result in the disqualification of the candidate. The Board of Trustees' judgement will be final in determining whether a candidate has engaged in positive or negative campaigning. Negative campaigning is not permitted by any candidate or ICS member and will be considered a violation of the ICS Code of Conduct. This policy is in effect at all times and for any position.

During the voting period candidates' application forms will be circulated by the ICS office for all members to view. In addition, the ICS office will periodically contact all ICS members to encourage voting and provide direct links to the voting section of the ICS website.

## . HONOURS AND CAREER AWARDS

### Distinctions and Research Awards

#### INTERNATIONAL

#### Received

|          |                                                                                                                                                                             |
|----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2004     | <b>Vice President</b> , International Society of Pelvic Neuromodulation, United States. (Distinction)                                                                       |
| 2000 Apr | <b>Honorable mention, Lapides Award for best Research in Neurourology</b> , American Urological Association, Northeastern Section, Atlanta, United States. (Research Award) |
| 1998     | <b>2nd Place Winners, Resident Prize Essay Award</b> , American Urological Association, Northeastern Section, United States. (Research Award)                               |
| 1996     | <b>1st Prize, Research Paper</b> , Urodynamic Society. (Research Award) <i>(with Zvara P, et al)</i> .                                                                      |
| 1994     | <b>2nd Resident Prize Essay Award</b> , American Urological Association, Northeastern Section, United States. (Research Award) <i>(Elabbady A, et al)</i> .                 |
| 1993     | <b>Resident Prize Essay Award</b> , American Urological Association,                                                                                                        |

- Northeastern Section, United States. (Research Award)  
(*Elabbady A, et al*).
- 1992 **Resident Prize Essay Award**, American Urological Association, Northeastern Section, United States. (Research Award)  
(*Selmy G, et al*).
- 1991 **Resident Prize Essay Award**, American Urological Association, Northeastern Section, United States. (Research Award)  
(*Hassan A, et al*).
- 1989 **2nd Prize, Research Paper**, Endourological Society. (Research Award)  
(*with Elgammal M, at al*).
- 1987 **Honorable Mention, Research Paper**, American Urological Association, United States. (Research Award)  
(*with Mokhless I, et al*).

#### NATIONAL

##### Received

- 1996 **Best Basic Research Award**, Canadian Urological Association, Canada. (Research Award)  
(*with Shaker H, et al*).
- 1983 **Award prize Assay for Best Research**, Canadian Urological Association, Canada. (Research Award)

#### PROVINCIAL / REGIONAL

##### Received

- 2011 - 2012 **Mentor-Trainee-New Investigator Award in Spinal Cord Injury Research**, Ontario Neurotrauma Foundation, Canada. (Distinction)  
*Magdy Hassouna, Elkelini, Mohamed. Total Amount: 50,000 CAD*
- 1984 **Award for Best Basic Research**, Quebec Urological Association, Canada. (Research Award)
- 1982 - 1983 **Jean-Marie Beauregard Award for Best Research**, University of Sherbrooke, Canada. (Research Award)  
*1982, 1983.*

#### LOCAL

##### Received

- 2009 **Section Editor**, Neuromodulation: Technology at the Neural Interface. (Distinction)

### Teaching and Education Awards

#### INTERNATIONAL

##### Received

- 2013 Mar Urology, Dept of Surgery, Faculty of Medicine, European Urology Association-Canadian Urological Association. (Postgraduate MD, Subspecialty, Specialty: Urology)

*International Academic Exchange Program.*

LOCAL

Received

2009                      **A.W. Bruce Faculty Undergraduate Teaching Award**, Dept of Surgery, Faculty of Medicine, University of Toronto, Canada.  
(Undergraduate MD)

**Student/Trainee Awards**

NATIONAL

Received

2008                      **Post graduate Fellowship**, Supervisor, Awardee Name: M. Elkelini.  
Canadian Institutes of Health Research, Canada  
*Total Amount: 40,000 CAD*

**4. PROFESSIONAL AFFILIATIONS AND ACTIVITIES**

**Professional Associations**

American College of Surgeons  
American Urological Association  
Canadian Academy of Urological Surgeons  
Canadian Academy of Urological Surgeons  
Canadian Fertility and Andrology Society  
Canadian Medical Association  
Canadian Neuromodulation Society  
Canadian Society of Clinical Research  
Canadian Urodynamic Professional  
Canadian Urological Association  
Institute of Medical Science  
International Society of Pelvic Neuromodulation  
Quebec Urological Association  
Societe International d'Urologie  
Society of Urodynamic and Female Urology

**. GRANTS, CONTRACTS AND CLINICAL TRIALS**

**PEER-REVIEWED GRANTS**

FUNDED

2014 Sep - 2016 Sep                      **Principal Investigator.** Medtronic Inc. (Physio-Control International Corporation). 46,000.00. [Industrial Grants]

2013 Jan - 2015 Jan                      **Principal Investigator.** The use of Electrodes on the Sacral nerves

|                     |                                                                                                                                                                                                                                                                                        |
|---------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                     | to record changes in the Bladder Volume. Physician Services Incorporated Foundation (PSIF). Collaborator(s): Popovic, I and Zarriffa, J. 126,000 CAD. [Grants]                                                                                                                         |
| 2012 Nov - 2014 Jun | <b>Principal Investigator.</b> Estimation of bladder volume from sacral nerve root recordings'. PSI Foundation. 126,000 CAD. [Clinical Trials]                                                                                                                                         |
| 2008 - 2012         | Novel Therapeutic Strategies for Obstructive Bladder Disease. Canadian Institutes of Health Research (CIHR). PI: Bagli, Darius. Collaborator(s): <b>Magdy Hassouna</b> . 440,000 CAD. [Grants]                                                                                         |
| 2008 - 2010         | Identification of Novel Treatment strategies of Obstructive Bladder diseases. Kidney Foundation of Canada (KFC). PI: Bagli, Darius. Collaborator(s): <b>Magdy Hassouna</b> and Rosalyn Adam. 100,000 CAD. [Grants]                                                                     |
| 2007 - 2012         | <b>Principal Investigator.</b> Multicenter randomized study on the efficacy and safety of M3 receptors antagonists on the urinary bladders in spinal cord injured patients. Ontario Neurotrauma Foundation (ONF). Collaborator(s): J. Wilson and C. McGillivray. 401,204 CAD. [Grants] |
| 2007                | <b>Principal Investigator.</b> Comparison between 2 of M3Receptors antagonists on detrusor overactive bladder in spinal cord injured patients. Ontario Neurotrauma Foundation (ONF). Collaborator(s): Wang Y. Ming Z. 10,000 CAD. [Grants]                                             |
| 2001 - 2002         | <b>Principal Investigator.</b> Industry Academic Endeavour. Canadian Institutes of Health Research (CIHR). 15,000 CAD. [Grants]                                                                                                                                                        |
| 2001 - 2002         | <b>Principal Investigator.</b> Role of VRI receptors in the afferent innervation of the bladder in voiding dysfunction. Medtronic Research Foundation. Collaborator(s): Wang Y. Ming Z. 20,000 CAD. [Grants]                                                                           |
| 1998 - 1999         | <b>Principal Investigator.</b> Effect of Neuromodulation on the Lower Urinary Tract Following Spinal Cord Injury. Paralyzed Veterans of America Spinal Cord Research Foundation. Collaborator(s): Fehlings, M.G. 94,068 CAD. [Grants]                                                  |
| 1996 - 1997         | <b>Principal Investigator.</b> Modulation of bladder function through neurostimulation. Kidney Foundation of Canada (KFC). Collaborator(s): Elhilali, M.M., Sawan, M., Duval, F. 40,000 CAD. [Grants]                                                                                  |
| 1995 - 1996         | <b>Principal Investigator.</b> Modulation of bladder function through neurostimulation. Kidney Foundation of Canada (KFC). Collaborator(s): Elhilali, M.M., Sawan, M., Duval, F. 40,000 CAD. [Grants]                                                                                  |
| 1990 - 1993         | <b>Principal Investigator.</b> Effect of electric stimulation of sacral roots on the outcome of post-traumatic neurogenic bladder. Medical                                                                                                                                             |

Research Council of Canada (MRC). 104,214 CAD. [Grants]

1988 - 1990

**Principal Investigator.** Effect of early bladder stimulation on spinal shock phase. Medical Research Council of Canada (MRC). 81,250 CAD. [Grants]
