ADVANCES IN UROGYNÆC^{OL}OGY 2023

SPHINCTER SUMMIT

13 - 14 - 15 October, 2023

Dear Urogyne fraternity,

We are proud and honoured to welcome you to the latest Urogyn conference – **“Advances In Urogynecology 2023 (AIUG) – Sphincter Summit”** to be held on **13th, 14th and 15th of October, 2023 at KIMS Hospitals, Secunderabad**. The blues of the Covid are behind, and we have restarted the train of learning, akin AIUG 2017 and AIUG 2019.

Urogynecology is still a new sub-specialisation in India. But every Gynecologist and Urologist deals with the Pelvic floor and will benefit from this conference. This conference will cover updates in technology and newer surgical techniques.

The Cadaver session is a noteworthy event. A surgeon, not well versed with anatomy is like a pilot without a navigation plan. The Pilot holds hundreds of lives in his hand, and we hold our patients' lives in ours– a huge responsibility! This workshop will reintroduce the participants to surgical pelvic anatomy in reference to Urogyn. We plan to demonstrate complex Urogynecological Surgeries on cadavers, under the guidance and supervision of the world class faculty

The highlight of the conference is the pre-recorded talk on Pelvic Anatomy and Prolapse, by Dr. John O. Delancey, the living Legend!

Highly accomplished international faculty, Dr. Michael D. Moen, Dr. Holly Elizabeth Richter, Dr Marlene Corton and Dr. Peter L. Rosenblatt, with their expertise will be enriching this academic feast. A highly qualified team of top-notch National faculty will be a great value addition.

The conference is vibrant with panel discussions, lectures, debates, and interactive sessions that will allow participants to engage with the faculty and their peers. We can share knowledge and learn from each other's experiences.

In conclusion, there are many reasons for you to attend this conference:

- The Cadaver Workshop - an incredible opportunity to learn “Basics to Advances”: Hands-On!
- Dr. Delancey's Lecture : An Unforgettable once in a life time experience.
- Stalwarts in Urogyn on an accessible forum: Dynamic and Enthusiastic Mentor Teachers

The conference promises to be a phenomenal learning experience, and the organisers are committed to delivering the highest quality of education to the participants.

“The capacity to learn is a gift, the ability to learn is a skill and, the willingness to learn is a choice.” – Brian Herbert

Do choose this conference, enjoy the talks and interact with the faculty!

Don't forget your dancing shoes!

Hyderabad, the city of Pearls and Nawabs, awaits you!

Register now at www.aiug.in and join us in this memorable journey.

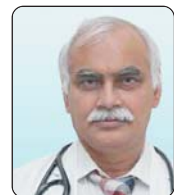

Dr. Anuradha Koduri

INTERNATIONAL FACULTY

Peter L. Rosenblatt, M.D.

Professor of Obstetrics, Gynecology & Reproductive Biology

Dr. Rosenblatt is a legend in the current Urogynaecological scenario. A committed teacher and an excellent surgeon, he is currently a Professor in OB/GYN in the Harvard system. His awards and accolades are too many to fit in here, but examples are:

- A leading innovator, especially in meshes like “the “TOPAS” sling” for Fecal incontinence. He has been in many leadership roles and was the past president of the American Urogyne Association - AUGS- in 2019- 2020.
- Appointed President of the SGS and was on the Board of Directors of the Society of Gynaecologic Society (SGS).
- Outstanding Medical Educator Award for the Univ of Massachusetts Medical School in 1992.
- Elected to one of the top ten Reviewers -of FPMRS Journal in 2020.and AAGL journal as well.
- Participated in many studies on women's incontinence and post-market study of the “uphold” device for POP and many other mesh products.

Holly Elizabeth Richter, M.D.

Ph.D, FACOG, FACS(USA) - Obstetrics & Gynecology, Urology

Dr. Holly Richter is the appointed Professor, the endowed chair of OB/GYN, Urology, Urogynecology pelvic reconstructive surgery., University of Alabama Hospital and Clinics, Director Genito-rectal Disorders Clinic, Center for Research in Women's Health and Ambulatory Clinical Director. In addition to the MD she acquired a PhD in Molecular from the University of Manitoba.

- 2019- her trainees felicitated her. “HONOUR YOUR MENTOR-Program.” She has received too many AWARDS to list here.
- 2020 she was elected president of the American Urogynecological Society and a Member of the Board of Directors.
- She has been the recipient of many grants for studies in Women. She has published to date 371 papers in the Field of Urogynecology

Marlene Corton, M.D.

Urogynecology/Female Pelvic Medicine & Reconstructive Surgery

Dr. Marlene Corton is a Professor of Obstetrics and Gynecology at the University of Texas Southwestern Medical Center and Parkland Health and Hospital System in Dallas, Texas. For her entire career, Dr. Corton has focused on furthering the understanding of pelvic anatomy and teaching it to others.

- She founded and directed the surgical anatomy and fresh cadaver dissection course at UT Southwestern.
- She has organized and directed anatomy courses for the Society of Gynecologic Surgeons (SGS) and the American Urogynecologic Society (AUGS).
- She has authored many prize-winning anatomy papers and videos. She has written chapters in two of the highly peer-reviewed books in Urogynecology
- She is devoted to education and received the Outstanding Faculty Teaching Award in 2002 and the ACOG Mentor of the Year award in 2013.
- Dr. Corton is dedicated to promoting excellence in gynecologic surgery through acquiring knowledge and advancing research and education.

Michael D Moen, M.D.

Urogynecology/Female Pelvic Medicine & Reconstructive Surgery

Professor of Obstetrics and Gynecology Rosalind Franklin University of Medicine and Science. Chicago Medical School. He did his fellowship with Dr Raymond Lee a legend in Vaginal surgery from Mayo clinic. He has been awarded many awards few of which are here listed.

- CREOG National Faculty Award – Excellence in Resident Education – 1996, 1998, 2003,
- Chicago Medical School Outstanding Faculty in OB/GYN Award – 1999-2000
- Association of Professors of Gynecology and Obstetrics-Excellence in Teaching
- Top Doctors for Women – Chicago Magazine – 2010,
- America's Top Doctors – U.S. News & World Report – 2011,
- Chicago Super Doctors – 2012, 2013
- Center of Excellence in Minimally Invasive Gynecology -designated surgeon – 2013.

The Cadaver Workshop

13th October, 2023

"It is not how fast you get there; it is how safely you get there!"

Knowing this is the hall mark of both, a good surgeon and a good driver. Operating without a thorough knowledge of anatomy is like driving without directions. Not knowing where to go, what dangers and pitfalls are ahead, and how to avoid them can be a menace. It is crucial to identify the warning signs and red flags.

This is truer for pelvic surgeons since they are operating in a cramped space, full of important organs with complex relationships. Venous plexuses, bowel, bladder, arteries and our arch enemy "the Ureter," crop up unexpectedly.

"Keep your friends close and your enemies closer" is a valuable dictum.

Keeping the Ureter close (in vision) but away from sutures or scissors is an art that you acquire if you know the pelvic anatomy well.

We are offering a unique opportunity on the 13 th of October 2023, to observe the pelvic and perineal anatomy by a master anatomist/Urogyn on cadavers. Following this, world-renowned faculty will guide you through many of the Prolapse and Incontinence procedures on the cadavers. This would be of immense help when you operate on live patients in your practice.

We may have been good at anatomy in our college days, but let's face it- we all feel the need to revisit the pelvic anatomy after a few years of practice. This is a golden opportunity that should not be missed.

We will be accommodating 60 delegates in the lab to be able to give each one an extensive hands-on experience.

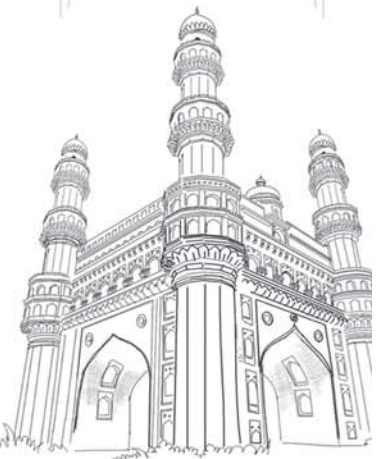

Those who want to keep their hands clean, can watch the live relay of the same in an auditorium (limited to 250 delegates) with the faculty discussing the procedures as they are being done in the lab. **Registration for the conference is mandatory for either.**

One request: The cadavers you will be operating on, were alive once, like us. They deserve due respect at all times. We will start the session with a small prayer to the souls of the cadavers we are going to work on and thank them for allowing us to learn from them. Detailed instructions, material to read including pelvic anatomy, procedures step by step, venue and other details will be provided 2 weeks prior to the conference.

Our sincere thanks to
Osmania Medical College
HYDERABAD

**NOTE : Workshop seats are limited. Hands-on: 60.
Live Telecast: 250
So please Hurry Up!
Reserve your spot.**

TENTATIVE SCIENTIFIC SESSION

14th October, 2023

SESSION 1 : PELVIS - THE MAZE

Introduction- Overview of the conference
Pelvic Anatomy-Revisited
Pelvic floor Imaging
Obstetric forces on the Pelvic Floor
Why me? Epidemiology and staging of the POP
Urogynecology: Indian perspective
Q & A
TEA BREAK
Inauguration

SESSION 2 : RECONSTRUCTION

Apical Prolapse - Vaginal Approach
Apical Prolapse - Abdominal Approach
Current Status of Mc Calls
Sutures and Meshes in Urogyn
Cystoscopy for Gynecologists
DANGAL: Hysteropexy vs Hysterectomy
QUO VADIS: Mesh
Q & A
LUNCH

SESSION 3 : RETAIN

Non surgical management of POP
Hysteropexy-Abdominal and Vaginal
Manchester Fothergill repair: Then and Now
Obliterative Procedures
Q & A

SESSION 4 : MIXED BAG

V Notes: HUSS
Levator Ani: THE RINGMASTER
Urodynamics in POP
Pelvic floor Physiotherapy
Prevention of Apical Prolapse - Surgical Techniques
Surgical Videos - International Faculty
Q & A

15th October, 2023

FREE PAPERS

SESSION 1 : THE WONDER ORGAN

Anal Sphincter Anatomy & Physiology
Evidence based treatment approach to Fecal Incontinence
Surgical approaches to Fecal Incontinence
Defecatory Dysfunction
OASIS: Panel
Q & A
TEA BREAK

SESSION 2 : TAKE CHARGE OF BLADDER

Current Status of Stress Urinary Incontinence
(**Lalita Sastri Oration**)
Approach and Treatment to OAB
Urine Examination - Do's & Don'ts
Recurrent UTI + Microbiome
Demystifying IC/BPS
When to When not to dilate - Urethroplasty
Voiding Dysfunction
Q & A
LUNCH

SESSION 3 : REMODEL

Unwanted Holes - Fistula
Vaginal Reconstruction, Cosmetic Surgery in Urogyn
Robotics in Urogyn : Our experience
Vaginismus - Importance of Physiotherapy
Lasers in Urogyn
Q & A
TEA BREAK

SESSION 4 : LET'S TALK IT OVER

Case Presentations & Interesting Videos by the whole faculty
Discussion & Comments (Delegates' participation welcome)
VALEDICTORY

SPHINCTER SUMMIT

13 - 14 - 15 October, 2023

REGISTRATION

Registration is open to all registered Medical Practitioners, Health care providers & PGs.

To register please login to our website www.aiug.in

REGISTRATION FEE :

13th, 14th & 15th October, 2023, Workshop & Conference.

		Category	Choice of Presence	Early Bird 9 Apr - 31 May	Normal Ticket 1 Jun - 31 July	Late Bird 1 Aug - 10 Oct	On-Spot Registration
1	CONSULTANTS	UPIA MEMBER	Conference Only	9440	11800	15,340	17,700
			Conference + Cadaver Workshop (Hands-on)	43,000	45,000	47,000	50,000
			Conference + Cadaver Workshop Telecast	16,440	17,000	22,340	24,700
		NON MEMBER	Conference only	11800	14160	17,700	20,060
			Conference + Cadaver Workshop (Hands-on)	45,000	47,000	49,000	52,000
			Conference + Cadaver Workshop Telecast	18,800	21,160	24,700	27,060
2	PGs	Conference Only		5,900	6,490	7,080	7,670
		Conference + Cadaver Workshop Telecast		13,000	15,000	17,000	19,000

NOTE : 1) Conference registration is mandatory to sign-up for the Cadaver Session
2) Pre-conference Cadaver Workshop registration restricted to 60 participants (Hands-on) and 250 participants (Live Telecast).

REFUND AND CANCELLATION:

- Last date for cancellation : 13th September, 2023
- Administration charges Rs.2000/- for Consultants and Rs.1000/- for PGs will be deducted from the conference amount and remaining amount will be refunded after the conference.

ABOUT HYDERABAD

Hyderabad is known for its historic legacy and is noted mainly for its monuments, temples, bazars, masjids, amusement parks, cuisine, gardens etc. The culture of Hyderabad is an amalgamation of mannerisms of the settlers who have come here from across the country. Thus, this brings about diversities in language, lifestyle and tradition. This is also clearly shown in the festivals celebrated across the city. The four major religions which are followed in Hyderabad are-Islam, Hinduism, Christianity and Buddhism. They usually follow a culture that is a unique blend of Hinduism and Islam and the monuments, along with the places of worship, display this amalgamation, artistically. The buildings of Hyderabad display a distinct Indo-Islamic style in its architecture which is mainly due to the regional and religious influences.

Hyderabad, also known as the 'City of Nawabs' is steeped in rich culture and history. The city is known for its opulent heritage, with a wide array of mosques, churches, temples, monuments, historic places, food and the arts. The city of Hyderabad is recognized for its hospitality and is the one place where you can find a perfect amalgam.

VENUE

KIMS Hospital, Minister Road, Krishna Nagar Colony,
Begumpet, Secunderabad, TS-500003.

Organised by:
